The statistical tables in the Report of the Minister 1965 have been regrouped to conform with the reorganized structure of the Department. In addition, the tables have been renumbered in accordance with the principle of the Dewey decimal system. For the convenience of readers, the numbers of tables in the 1964 edition of the Report to which the current tables correspond will be found in the second of the two right-hand columns below under the heading "1964 table 1 Reference".

This year, for the first time, a large proportion of the statistical material in the Report of the Minister is the product of the electronic data-processing equipment installed at the Education Data Centre.

By way of experiment, the tables in Appendix 3 (pp. 199), "Secondary Schools, Enrolment and Teachers," have been reproduced in the form in which they came from the computer.

STATISTICS—1. SUMMARY

	Page	1964 TABLE REFERENCE
TABLE 1.1 Summary of Public Education in Ontario, September, 1965 (Schools, Teaching Areas, Teachers, Enrolment, Boards)	68	1
1.2 Population and School Enrolment in Ontario (1947-1965)	69	3

	Page	1964 TABLE REFERENCE
1.3 Enrolments by Grades (1947-1965):		
1.31-Elementary and Secondary Schools.	70	5
1.32-Public Schools.	72	43
1.33-R.C. Separate Schools	72	55
1.4 Pupil Progress through Grades 9-13	73	70
1.5 Enrolments by Age-Grade-Sex, June, 1961:		
1.51-Standard Grade Pupils	74	4A
1.52-Public Schools.	75	4B
1.53-R.C. Separate Schools	76	4C
1.54-Secondary Schools	77	4D
1.6 School Administrative Units (1964 and 1965) . . .	78	12
1.7 Summary of Attendance Officers' Reports (1956-1964)	78	14
2. TEACHERS		
TABLE 2.1 Acquisitions and Withdrawals	82	15, 16
2.2 Salaries:		
2.21-Public Schools.	83	40
2.22-R.C. Separate Schools	84	53
2.3 Enrolment in Ontario Teachers' Colleges as of October, 1965.	85	9
2.4 Training Colleges (Enrolment by Years).	87	10
2.5 Departmental Summer Courses (Enrolment by subject, 1955-65)	88	13
2.6 Board-Sponsored Winter Courses*	88	
2.7 Professional Certificates issued during 1964-1965	89, 90, 91	11
3. PUPILS		
TABLE 3.1 Enrolments, Admissions, Transfers and Retirements	94	24, 31, 44, 56
3.2 Enrolments:		
3.21-by Course, Branch and Program in Secondary Schools, September 1965 . . .	95	57
3.22-by Counties and Districts, September, 1965	96	23
3.23-by Municipality, September, 1965 . . .	97, 99, 100	32, 45, 58
3.24-in Kindergarten Schools, September, 1965	101	28
3.25-by Age-Grade-Sex, in Elementary Schools attended by French-Speaking Pupils, June, 1961	102, 103, 104	30
3.26-in Secondary Schools, of French-Speaking Pupils in Français, September, 1965 . . .	105	65
3.3 Pupil Retirements:		
3.31-by Destination: Elementary and Secondary Schools	106	19
3.32-Secondary Retirements by Destination and Highest Certificate Awarded	106	69
3.4 Retirements by Years:		
3.41-Pupil Retirement from School Life by Grades (1948-1965)	107	21
3.42-Retirements from School Life Related to Enrolment (1954-1965)	107	22
3.5 Certificates and Diplomas issued to pupils in 1965	109, 110, 111, 112, 113, 114, 115	66
3.6 Immigration and Migration of School-Age Children:		
3.61-to Canada (1949-65), by Province of Intended Destination	116	6
3.62-to Canada and Ontario (1955-65) . . .	117	7

3.63-Net Number of Children Transferring in or out of each Province (1954-1965) . . .	117	8
3.7 Transportation:		
3.71-Pupil Transportation	118	17
3.72-Transportation Assistance for Persons residing in the Territorial Districts, 1964-1965	119	68

4. ELEMENTARY AND SECONDARY SCHOOLS

TABLE 4.1 Schools, Teachers, Teaching Areas and Enrolment
(September, 1965):

4.11-by Type of School Board	122	33, 46
4.12-by Type of Municipality	123	38, 51
4.13-by Population of Municipality	124	39, 52
4.14-by Counties and Districts	125, 128	34, 47
4.15-by Number of Teaching Areas	129	35, 48, 61
4.16-by Number of Teachers	130	37, 50, 63
4.17-by Enrolment	131	36, 49, 62
4.18-in Elementary Schools attended by French-Speaking Pupils, including distribution of Enrolment by Grades (1955-1965)	132	41, 54
4.19-in Protestant Separate Schools	133	42
4.2 Elementary Schools and Teaching Areas, by Municipality, September, 1965	134	25
4.3 Distribution of Elementary Schools:		
4.31-by Number of Teaching Areas and Years (1949-1965)	134	26
4.32-by Number of Teaching Areas and Municipality, September, 1965	135	27
4.4 Evening Classes in Secondary Schools: Enrolment by Subject (1964-1965)	136	60
4.5 List of Secondary Schools having Departments of Agriculture, 1965	137	73

5. OTHER SCHOOLS AND INSTITUTES

TABLE 5.1 Private Schools as of September, 1965:

5.11-Enrolment by Grade and Sex	140	92
5.12-Schools and Enrolment by Number Enrolled	140	93
5.13-Schools by Type (day, boarding, etc.)	140	94
5.14-Schools by Level of Instruction	140	95
5.2 Special Schools as of September 30th, 1965:		
5.21-School for the Blind, Brantford	141	76
5.22-School for the Deaf, Belleville	142	77
5.23-School for the Deaf, Milton	143	78

Report of the Minister of Education 1965

To The Honourable W. Earle Rowe, P.C. (C)
Lieutenant-Governor of the Province of Ontario

Your Honour:

With all respect, I present the Report of the Department of Education for the year 1965. In the period under review, continuing efforts were made to extend and re-orientate the well-tried educational system of the Province along lines that would ensure growth to meet the changing needs of today while creating a sound foundation for dealing with a prospective pattern of change in the future.

One important forward-looking feature of the year's activities was the extensive reorganization in January of the departmental structure itself, which is discussed in some detail in the following pages. A further move in the same direction was the inauguration of a computer-based approach to the processing of educational data. Although this is already reflected to some extent in the statistical section of the present report, its effects will be more clearly observable as the new methods are tested and established in the coming years.

Enrolments in September 1965 reached levels never before attained. The provincial total for elementary and secondary schools in that month stood at 1,738,781. The overall increase surpassed the 1964 figure by 65,007 or 3.9%, which represented a rise of 41,570 or 3.25% in the elementary schools and 23,437 or 5.9% in the secondary schools.

As the range of subject matter in the schools grows wider and more complex, the need for teachers with a higher level of qualification gains in urgency. For elementary schools the supply of teachers during the year broadly balanced the requirements, although a shortage persisted in the separate schools. Students registering at the Teachers' Colleges as of October 15 numbered 5,913, a figure which was influenced by the fact that the last group of candidates for the emergency Two-Year Course enrolled in September 1964. Last fall a new Teachers' College opened in temporary quarters at Brock University in St. Catharines. At the end of 1965 the committee engaged on a study of the training of elementary school teachers had almost completed its work and preparation of a report was in progress.

A total of 4,052 candidates took initial training leading to secondary teaching certificates, an advance of 458 on 1964. Summer courses attracted 8,049 teachers who outnumbered their counterparts in the previous year by 827. The drive to find untapped sources of recruits for the teaching profession was prosecuted through the medium of three experimental courses, one for teachers of French in elementary schools.

As a result of the application of Bill 54 (1964), which accelerated the movement towards larger units of school administration, the number of Township School Areas

into which former three-man rural school boards had been consolidated stood, by the late fall, at 596. Under the provisions of Bill 88, passed during 1965, the trend towards enlarged administrative entities was extended in such a way that county councils in Southern Ontario and municipal councils in the north were given authority to alter the boundaries of all school sections other than those involving cities or separated towns. Following passage of the legislation, a number of county and district school areas, as well as enlarged township school areas, were set up. They included the Peterborough and Prescott County School Areas, each encompassing the whole of the appropriate county, and the South Grey Board of Education, which takes in three urban municipalities, two whole townships and parts of two others. Two district school areas on similar lines were established in the District of Algoma. As the year ended, the prospect was for early formation of other enlarged units of the same kind.

In the field of school building, the creation of township school areas has, of course, sustained the demand for centrally located graded schools in rural areas which has been in evidence for the past three years. At the secondary level the tendency during the year was towards the construction of a larger number of smaller projects providing more elaborate and, in many cases, expanded facilities such as libraries and teaching areas for commercial subjects. In the five-year period since 1961 the unit cost per pupil place in elementary schools has risen from \$806 to \$1,002 and in secondary schools from \$1,636 to \$3,510. In the latter case the sharp increase in capital costs was largely due to the unprecedented expansion of vocational facilities under the Federal-Provincial Technical and Vocational Training Agreement.

Curriculum, a key sector of educational change in the Department, received intensive attention. Forty-one committees, several of them set up during the year, were occupied with a continuing reappraisal and modernization of courses of study. To complement and support their efforts, a start was made on broadening liaison between the Curriculum Division and classroom teachers.

Solutions for Grade 13 problems moved closer to decision. By the end of the year, recommendations made in March by the General and Advanced Committee in respect to the preparation of tentative courses of study had been implemented and outlines of the courses had been completed by committees representative of the secondary schools and the universities. The outlines will be distributed for study early in 1966.

Since the publication of the Hope Report (by the Royal Commission on Education in Ontario) in 1950, no thoroughgoing study of purpose and direction in the educational system of the Province has been undertaken. In the intervening fifteen years, the social, economic and technological changes sweeping the world have affected the whole structure of education almost everywhere. For these reasons, the Provincial Committee on Aims and Objectives of Education, formally appointed in June, came into existence at an opportune time. Its 21 members, under the distinguished chairmanship of Mr. Justice Emmett M. Hall, include 15 leading lay citizens of the community, five nominated members of the teaching profession and the Superintendent of Curriculum. At the end of the year, submissions from many quarters had been made to the committee in briefs and at public hearings. In 1966, members will hear expert views, and their own researches will be extended to educational practice in other provinces and countries. While their report is awaited, interim steps to update

courses of study for the Kindergarten and Grades 1 to 6 are being taken by the Curriculum Division.

In response to the rising demand for teachers of French, among other foreign languages, special summer courses were again offered and a new course for candidates proficient in oral French was instituted at several Teachers' Colleges in the fall.

Growing interest in school library services throughout the school system resulted in a sharp increase in enrolments in a course for teacher-librarians and stimulated active interest in school librarianship as a profession. Departmental book grants for elementary schools and building grants for both elementary and secondary schools spurred local boards to embark on larger school library projects.

The newly created Educational Television Section, which was integrated into the Curriculum Division, marked the important first step on the road to a provincial educational television service. Two series of programs—one in Grade 7 Mathematics, the other in Grade 13 Physics—went into production. They were the forerunners of others, now in the planning stage, which will be directed at audiences of many types from the pre-school to the adult years.

Two related developments were designed to establish continuity between the elementary and secondary panels of the provincial system and, at the same time, to produce more streamlined and effective administration. A program combining many features was put into effect to integrate the supervision of elementary and secondary schools. Simultaneously, the first five units in a plan to decentralize the administrative structure were created. Five new Area Offices were opened, each under the control of an Area Superintendent who will gradually acquire a large measure of supervisory and administrative responsibility. In due course, this network of area offices will extend throughout the Province.

Year by year a story of quiet achievement is built up by those who work with handicapped children of all kinds. In 1965, the Special Schools and Services Branch in its reconstructed form added to its activities a new Schools for Retarded Children Division which will be responsible for the educational programs in 93 day schools operated by Retarded Children's Education Authorities.

Opportunities for technical and vocational training at the post-secondary level were the focus of much student interest. All the Institutes of Technology, all the Vocational Centres and the Advanced Technical Evening Classes under the jurisdiction of the Technological and Trades Training Branch reported rises in enrolments, some of them large, with the attendant accommodation problems. The Ryerson Polytechnical Institute in Toronto announced an expansion scheme designed to raise its capacity to 10,000 full-time students by 1970. Small business courses under Program 4 and retraining courses for unemployed persons under Program 5 of the Federal-Provincial Technical and Vocational Training Agreement drew ever-increasing interest.

In the final assessment of the year, from which the research and community counselling of the Youth Branch cannot be omitted, two innovations are likely to stand out as having had special significance. The first was the legislation that paved the way for the development of Colleges of Applied Arts and Technology, whose evolution will

establish new opportunities in post-secondary education in this Province; the second, no less important, was the establishment of the Ontario Institute for Studies in Education, whose planned projects and pursuit of new directions in many fields constitute a research program that seems certain to exert great influence upon schools in the years ahead.

Respectfully submitted,

A handwritten signature in cursive script, reading "William G. Davis". The signature is written in dark ink and is positioned below the phrase "Respectfully submitted,".

Toronto, December 31, 1965.

Minister of Education.

Reorganization of The Department

In 1950, the Report of the Royal Commission on Education in Ontario, in a discussion of the aims of education, said:

"We have reason to be proud of Ontario's educational system. But education must always be on the march in order to meet new conditions. If those who are responsible for our educational system ever believe that it has attained a stage of final perfection, it will have become a crystallized agency for indoctrination."

Today education is "on the march" as at almost no other period in our provincial history. "New conditions" could have been a predesigned label for our own time and for the years that will take us into the twenty-first century. In our pursuit of the goal of equality of opportunity in education for all our citizens, we are confronted by an explosion of knowledge in all the sciences, old and new, and in many other branches of learning. At the same time, the services and institutions which our educational system has thrown up as the need arose in the course of a hundred years and more of development have become increasingly complex, particularly since the end of World War II.

It had consequently become evident that the operations of the Department of Education, which is the hub of the educational system of Ontario, needed to be re-examined and, perhaps, refashioned if the Department were to be equal to the new demands, new needs and new perspectives in education which have been developing over the past twenty or so years.

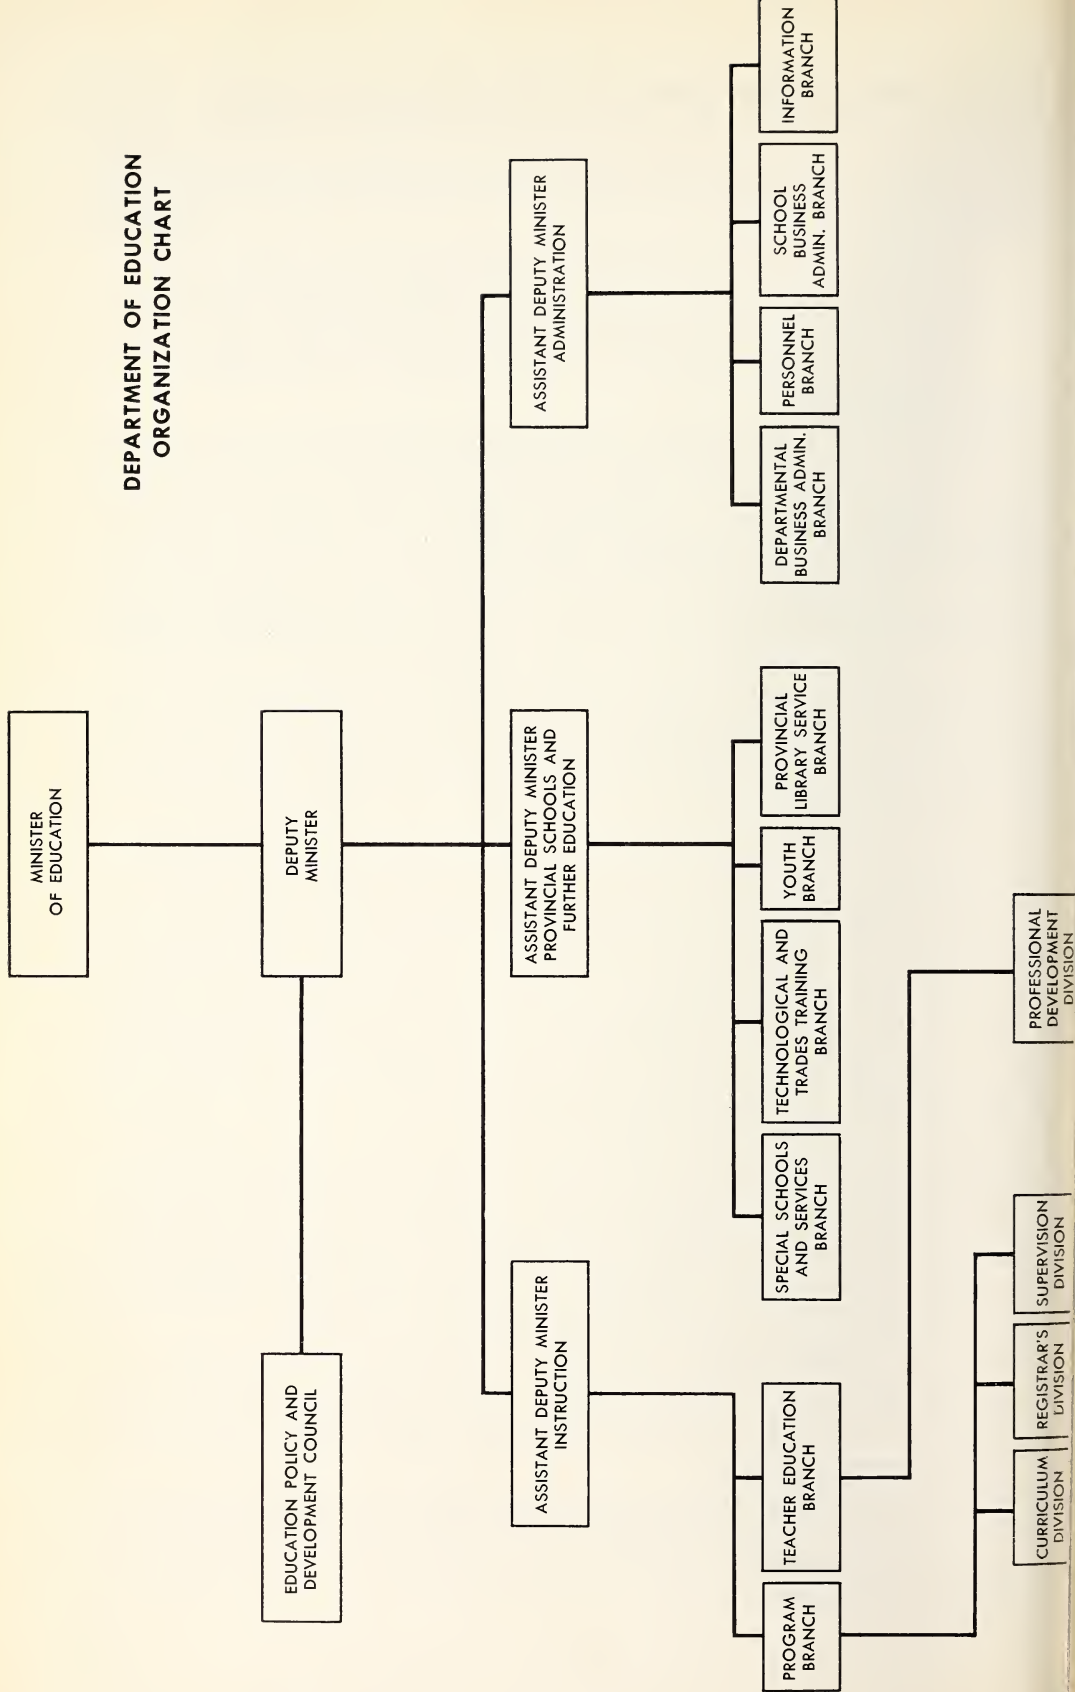

Accordingly, in 1962, officials from various government agencies were asked to review the staffing and organization of the Department. After making their own studies and consulting with members of the Department and others over a period of two years, they produced a reorganization plan which was put into effect at the beginning of 1965. Explanations of the application of the plan are given in the present report at points where they have been thought necessary to assist in providing a comprehensive picture of the Department and the system it serves under present conditions. What follows, therefore, is a broad outline of the organization itself, which is clearly presented in graphic form on the organization chart on page 2.

In place of a Chief Director, an office which has been discontinued, the senior administrative officer of the Department under the Minister of Education is now the Deputy Minister. Like him, the Policy and Development Council, a body which concerns itself with planning and with the co-ordination of educational development, reports directly to the Minister. Supporting the Deputy Minister are three Assistant Deputy Ministers, to whom large areas of responsibility are delegated.

The Assistant Deputy Minister, Instruction, is answerable for two branches:

1. the Program Branch, which has charge of the entire instruction program for the Province, and oversees curriculum, elementary and secondary education, examinations and supervision;
2. the Teacher Education Branch, which is responsible for the training of elementary-school teachers at Teachers' Colleges, for the professional development of teachers, and for liaison with the Ontario Colleges of Education, where secondary-school teachers are trained.

DEPARTMENT OF EDUCATION ORGANIZATION CHART

The second pillar of the supporting structure is provided by the Assistant Deputy Minister for Provincial Schools and Further Education. Four branches operate under his jurisdiction:

1. the Special Schools and Services Branch, which is concerned with schools for blind and deaf children, schools for retarded children, community programs and correspondence courses;
2. the Technological and Trades Training Branch, which operates the Institutes of Technology and the Ontario Vocational Centres and which will be generally responsible for the relations of the Department with the new Colleges of Applied Arts and Technology;
3. the Youth Branch, whose work is directed at helping young people to meet the opportunities and challenges of the modern world; and
4. the Provincial Library Service, which, by a variety of means, assists county and municipal councils, individuals and public library boards in furthering standards of library service.

All the administrative apparatus of the Department of Education is now concentrated under the third of the three Assistant Deputy Ministers, whose title therefore is Assistant Deputy Minister, Administration, and whose authority covers four branches:

1. the Departmental Business Administration Branch, which controls the internal operations of the Department;
2. the Personnel Branch, which has the task of administering departmental personnel matters, including staffing, employee relations, job evaluation, staff development and organizational studies;
3. the School Business Administration Branch, which attends to business and administrative matters affecting the schools of the Province; and
4. the Information Branch, whose function it is to create and sustain two-way channels of information about the Department and its activities with the general public, school trustees and teachers.

In essence, the main purposes of the arrangements outlined here are to achieve and maintain a smoothly functioning, flexible organization, and to release the full energies of educators for the manifold tasks now facing them by relieving them to the greatest possible extent of purely administrative activity.

Details of the structure and workings of each of the individual branches are spread through the report that follows, together with an account of the operations of the re-constructed Department in its first twelve months of existence.

Program Branch

The Program Branch, formed in January, 1965, is responsible for the entire instruction program in the schools of Ontario.

One of its main functions is to put into effect the integration of elementary and secondary education in the Province. An additional purpose is to gather together,

under unified authority, curriculum, school supervision, examinations, testing and certification.

A number of individual responsibilities, formerly administered by small specialist branches in the Department, have been incorporated into the framework of the Program Branch.

CURRICULUM DIVISION

Scope and Function

In January, 1965, the Curriculum Division was expanded to include representation from the former branches concerned with art, guidance, music, and physical and health education. The directors of those branches became assistant superintendents in the new Division, and inspectors who had been active in the branches were transferred to the Supervision Division. Under the new divisional arrangements, the former Audio-Visual Education Branch became a Section, and a new Section, to administer Educational Television, was created during 1965.

The objectives of the Division can be stated as follows:

- (1) to articulate courses of study for Grades 1 to 13;
- (2) to provide new courses and programs designed to meet a wide variety of student needs;
- (3) to promote the best of new teaching methods, materials and techniques, including educational television and other audio-visual media and technological devices;
- (4) to carry out a continuing revision of curriculum publications in order that the school program may benefit from the findings of educational research, from the latest developments in scholarship, and from contacts with business and industry;
- (5) to redirect emphasis in the curriculum so as to prepare students for life in a technologically advanced society;
- (6) to ensure, within the limits of the school program, that the sense of identity and integrity of the individual and the values of society are preserved and enhanced.

Since September, 1965, members of the staff have been visiting the elementary and secondary schools of the Province to identify needs of the classroom teacher, to gather suggestions for improvement of courses, and to assist in the interpretation of new and revised courses.

In view of the additional responsibilities assigned to this Division, it is anticipated that the staff will be augmented to include specialists in all areas of the school program.

Curriculum Developments

During 1965, some 41 curriculum committees were engaged in the development of curriculum materials and course outlines for use in the schools. Members of the committees, totalling 345 in number, included teachers, inspectors, staff personnel of Teachers' Colleges and representatives of the professions and industry, all working with the Division staff.

Course outlines were completed for Chemistry (Grades 12 and 13), a Co-operative Course for Nursing Assistants (Grades 11 and 12), a Dietary Supervisors' Course (Grades 11 and 12), Marketing, Mathematics (Senior Division), Music (Intermediate Division), World Politics (Grades 11 or 12), and fifteen General and Advanced Level

Grade 13 Courses. Study Guides to assist in the implementation of new Grade 13 Courses in Biology and Physics were distributed to all secondary schools.

Committee work continued on many other courses: Grade 12 Chemistry; French (Grades 7 and 8 for English-speaking Pupils); Health; Home Economics (Grades 12 and 13); Hospital; Home and Associated Aids; Latin; Mathematics (Grade 10, Five-year Program); Mathematics (Grades 10, 11 and 12, Four-year Program); Music (Grades 7-13).

New committees formed in 1965 were concerned with the following topics:

Curriculum Revision for Kindergarten and Grades 1-6; Chemistry for the Four-year Program; Computer Science Education; Data-Processing; Electronics and Electricity; Fashions; and a Consultative Committee on Occupations. Additional committees were set up to develop sample examination papers in Grade 13 Biology, Grade 13 Physics, and Grade 12 Mathematics.

Grade 13 General and Advanced Project

In 1964, a Grade 13 Study Committee was set up to inquire into and report upon the nature and function of the Grade 13 year in the Ontario educational system. This committee recommended that instruction in the Matriculation Year be offered at two levels, general and advanced, and that a representative committee be appointed to study the implications of the recommendation regarding general and advanced levels of courses. The General and Advanced Committee submitted its report to the Minister in March, 1965, and recommended that committees with both secondary-school and university representation be established in each subject field to prepare broad, tentative outlines of courses, as guides for experimentation and as an indication to the universities of what they may expect from students taking each level.

In September, 1965, such committees were appointed for most subject fields. The chairmen of the committees visited the universities and other post-secondary institutions to discuss topics for the proposed outlines; they met secondary-school teachers singly or in groups, and invited guests to present ideas to the committees. Written suggestions were received from several interested groups.

By the latter part of December, the committees had reached agreement on the broad, tentative outlines which will be submitted early in 1966 for general study and for consideration by the Minister.

Provincial Committee on Aims and Objectives of Education in the Schools of Ontario

Most of the children who entered Ontario schools in September, 1965, are likely to spend a considerable proportion of their working lives in the twenty-first century. If, as many authorities predict, the rate and extent of social, economic and technological change is maintained, or accelerates, in the coming decades, educational objectives will need continuing reappraisal and school programs will have to be designed to respond accordingly.

With this prospect in view, it has become evident that educational programs of the future must be characterized by a flexibility that will satisfy society's changing requirements, by a diversity that will meet a variety of interests and aptitudes among students and by a continuity that will do justice to the ethical and democratic traditions of the Province.

It was against this background that the Provincial Committee on Aims and Objectives of Education in the Schools of Ontario was established. The 21 members of the Committee are made up of 15 leading citizens of the community, chosen to represent all geographic areas and as many as possible of the religious, ethnic, economic and cultural facets of provincial life, together with five teachers nominated by the Ontario Teachers' Federation, and the Superintendent of the Curriculum Division in the Department of Education. The Hon. Mr. Justice E. M. Hall, D.C.L. was appointed Chairman. After the death on October 22 of Sister Mary Stanislaus, one of the original members, Sister Alice Marie, Mount Saint-Joseph, London, was appointed to take her place.

Although the committee was concerned at the outset with the education of children in the Kindergarten and Grades 1 to 6, it quickly became clear that the aims and objectives formulated would be effective only if they were valid at all levels of the school system. The committee's terms of reference were, therefore, so phrased as to take into account the school years ranging from Kindergarten to Grade 13.

The terms of reference in operation are as follows:

- (1) to identify the needs of the child as a person and as a member of society;
- (2) to set forth the aims of education for the educational system of the Province;
- (3) to outline objectives of the curriculum for children in the age-groups presently designated as Kindergarten, Primary and Junior Divisions;
- (4) to propose means by which these aims and objectives may be achieved;
- (5) to submit a report for the consideration of the Minister of Education.

Meetings of the committee were held from April 7, 1965, onwards. Public hearings took place in Ottawa in December and others were planned for London, Toronto and Sudbury early in 1966.

Kindergarten to Grade 6 Revision

Pending the report of the Provincial Committee on Aims and Objectives in Education, interim steps to update the courses of study for the Kindergarten and Grades 1 to 6 are being taken by the staff of the Curriculum Division, in consultation with inspectors, Teachers' Colleges, teachers, and the Ontario Teachers' Federation.

The principal purposes of the interim revision are to draw recent curriculum changes to the attention of teachers, to introduce new content, and to suggest new approaches. It is not expected that the revision will be of such magnitude as to require extensive retraining of teachers or the development of new textbooks.

Textbook Policy

Any program of instruction is designed to satisfy a wide range of interests and abilities, to equip students with skills and knowledge for the world of work, and to provide the best possible general education capable of development and adaptation at the local level.

For these reasons, schools should be free to select from a multiple listing of approved textbooks those that best suit their needs. Circular 14, in which such approved textbooks are listed, is gradually being expanded in accord with this principle.

The contribution that has been made to Canadian education and to Canadian culture by the Canadian textbook publishing industry is recognized. The Department,

therefore, looks forward to continuing its constructive co-operation with Canadian authors and publishers under changing conditions.

Provision of Textbooks by Local Boards

From September, 1965, local boards were required to provide, without cost to the students, the textbooks necessary for all courses in Grades 11 and 12. To assist in the implementation of the plan during the introductory year, the Department reimbursed the boards at the rate of \$20 per student of average daily attendance of the preceding year.

The extension of the departmental grant for textbooks in these grades marks the final phase of a policy to provide equality of educational opportunity as regards textbooks to the students in the elementary and secondary schools of the Province.

Because of the many new courses that have been developed under the Reorganized Programs of Study, it is important that a reasonably wide choice of texts be available to teachers. Although the new grants may cover the cost of textbooks in some areas, many school boards may find it desirable to supplement the amount of the grant for their own local purposes.

Joint Committee on Textbooks

In June, 1965, a Joint Committee on Textbooks was established to inquire into, and report upon, the results of the introduction of special grants for the provision of textbooks for students in the secondary schools of Ontario; to identify the educational and administrative problems arising from the implementation of the textbook grants; and to make such recommendations for the modification of the existing procedures as they deem necessary.

Members of the committee are drawn from the Ontario Secondary School Teachers' Federation, the Ontario Teachers' Council, and the Department of Education.

Modern Languages

There was an ever-growing awareness during the year of the importance of foreign-language instruction in Ontario schools. To meet the demand for French teachers, special summer programs were again provided in Ottawa and Toronto where 286 candidates were certificated as instructors in French for elementary schools. In the fall, French was offered as an option to 70 orally proficient candidates in the two Teachers' Colleges in Toronto. During the year much work was done in preparation for the special 'immersion' program in French to be offered in the summer of 1966 to 200 French teachers from elementary and secondary schools who wish to improve their qualifications.

A curriculum committee was formed within the Curriculum Division to prepare a course of study in French (Level One and Level Two) which, in the autumn of 1966, will become an official option in Grades 7 and 8. Other curriculum committees prepared broad outlines of courses in French and German for possible use at the General and Advanced Levels of Grade 13. The Department of Education initiated two experimental programs in French-language instruction; one, conducted in six secondary schools of the Province, evaluated audio-lingual material designed for the Four-year Program; the other examined the feasibility of oral testing of languages at the Grade 13 level.

School Libraries—Elementary and Secondary

A rapidly developing interest in the improvement of school library services has been shown at all levels.

Encouraged by the increase in the departmental grant from \$1 to \$2 per pupil of average daily attendance for library books and by the continuance of the legislative grant to build a library in schools with 12 or more classrooms, many elementary boards have not only built central libraries but have also attempted to match the departmental book grant. A further indication of growing interest in elementary school libraries was the rise in enrolment in the Summer Course for Elementary-School Teacher-Librarians: 196 teachers registered for the first-year section and 86 for the second-year section, an increase overall of more than 100% over the figures for 1964.

At the secondary level, an improved legislative grant for construction of library quarters has spurred many boards to provide the larger libraries required to support an increasing emphasis in new curricula upon independent research and study. Libraries in new secondary schools are usually planned to function as library materials centres, a concept which places audio-visual media in the library for students to use in conjunction with books and periodicals.

More teachers were attracted to school librarianship as a career during the year. There was an increase of about 40% in the enrolment in summer courses for school librarians offered by the Ontario College of Education. The number of secondary-school librarians who hold the degree of Bachelor of Library Science increased from 49 to 71. Of the nearly 500 secondary schools in Ontario, 252 now have librarians-in-charge who possess library training ranging from one summer course to the post-graduate degree in library science.

Audio-Visual Education Section

Film Distribution

Demands for film services from elementary and secondary schools served directly by the film library continued to increase. The screening reports indicate 153,539 showings of films to a total school audience of 6,439,918 students during the current school year.

The policy of encouraging local boards of education, employing a substantial number of teachers, to operate their own basic film service was continued. Some additional blocks of films were placed with these local film libraries on extended loan. The Audio-Visual Section has deposited 6,515 films with 28 libraries, and improved service to teachers in areas concerned has resulted.

New Films

To keep pace with the growing emphasis on curriculum revision, new titles were acquired by the Audio-Visual Section. Since the publication of the Department's 1965 film catalogue, 79 additional titles have been obtained. Regular monthly screening sessions took place during the school year to evaluate recent educational film releases. Other special screenings were held to suit the convenience of select committees investigating specific subject materials.

Other Aids

Lists of Recommended Filmstrips, Recommended Recordings, and Free and In-

expensive Materials were prepared and widely distributed, on request, to Ontario schools.

School Radio Broadcasts

School radio broadcasts continued to be widely received in the elementary and secondary schools of Ontario. Evaluation reports indicate that this service makes a worthwhile contribution to the work of those classes where radio broadcasts are used. With the co-operation of the Canadian Broadcasting Corporation, 160 programs were prepared and presented. In addition, 40 national broadcasts and 20 exchange programs from the British Broadcasting Corporation were offered.

Radio manuals outlining the series of broadcasts were distributed in quantity during September to all elementary and secondary schools.

Educational Television Section

This new Section was established, as an integral part of the Curriculum Division, to plan and develop the role which the Department of Education will play in the evolution of educational television in the Province.

A number of staff appointments were made, and at the end of the year production of two series of programs for schools was in progress. The series covered respectively 18 half-hour programs in Grade 7 Mathematics and 17 half-hour broadcasts in Grade 13 Physics. Production of the two sets of programs was accomplished with the co-operation of the CBC and television station CFTO-TV in Toronto. The actual telecasts will be carried out through the facilities of the CBC, CFTO-TV and all the private television stations in Ontario.

During 1966, the Department will apply to the Board of Broadcast Governors for a licence to establish a television broadcasting station for the purpose of producing and transmitting programs of an educational nature.

Plans are now being made to expand the number of broadcasts for the school year 1966-67 to include some programs striking out in new directions in curriculum development.

REGISTRAR'S DIVISION

Grade 13 Departmental Examinations

In 1965, 3-hour examinations in English, Français and other languages were introduced for the first time. These replaced the two 2½-hour papers of former years. The opportunity of writing a single 2-hour examination was given to pupils who had obtained standing in the complementary paper in English, Français or another language at a previous examination. In this transitional year, ten more papers were set than in 1964. In all, 45 different papers were prepared, the subjects including Latin in French, and Problems. In the period from June 8 to June 29, a total of 48,350 students wrote 223,077 papers. The examinations were held in secondary schools in this Province and in universities in Canada and throughout the world. The results were released to school principals on August 16. At the same time, universities were provided with books of marks and magnetic tapes of the Grade 13 records for the current year for use in their admissions offices.

In the candidate's final standing, 25% was based on a mark which, in the opinion of the principal and the teachers, represented his proficiency in the subject concerned

during the school year. The written examinations accounted for 75% of the mark. The examinations of 1966 will implement the Grade 13 Study Committee's recommendation that the teacher's mark should represent 35% of the candidate's departmental standing.

Recognition was accorded for the first time to some 3,718 students from private schools by the issuance of Secondary School Honour Graduation Diplomas to pupils who had earned the required number of credits. Eighteen students who wrote as privately prepared candidates also received Secondary School Honour Graduation Diplomas.

Teacher Certification

The program of exchange and upgrading of teachers' certificates, introduced in 1962, continued to produce a heavy volume of work involving the evaluation of various types of certificates and university courses. In 1964, a total of 8,672 teachers exchanged their certificates for the new type or for a higher certificate. This number levelled out in 1965 to 4,956. The number of applications for summer courses that passed through the Division rose from 10,772 in 1964 to 12,774 in 1965. Applications for admission to Teachers' Colleges were processed by the individual colleges.

Scholarships for Study Outside Ontario

From the \$8,000 provided by the Province for scholarships for study outside Ontario, awards for the school year 1964-65 were made to: Mr. Keith D. Beckett, Parkdale Collegiate Institute, Toronto, to study at the Sorbonne, France; Miss Florence E. Bradford, Supervisor, Public School Board, Ottawa, to study in France; Mr. F. G. Bull, Stamford Collegiate Institute, Niagara Falls, to study at the Middlebury College (Vermont) Graduate School in France; and Mr. K. C. Tancock, of the Collegiate Institute, Agincourt, to study at the Institute of Education, University of London, England.

Teacher Exchange

During the school year 1964-65, a total of 28 Ontario teachers took part in exchange arrangements: 23 in the United Kingdom, four in the United States and, by special arrangement, one in Australia.

Transportation Assistance

The transportation subsidies offered by the Department of Education for persons who reside in the territorial districts and who are enrolled in eligible institutions of university rank have been provided for the past 18 years. In the year 1964-65, the sum of \$23,040 was paid to 933 students, of whom 616 resided east of Sault Ste. Marie and 317 west of that city. Of the students receiving assistance, 333 were in the first year of their courses, 259 in the second, 242 in the third, 86 in the fourth, 9 in the fifth, and 4 in the sixth.

SUPERVISION DIVISION

Scope and Function

The Supervision Division supervises and assesses the educational program carried out in the public, separate and secondary schools of the Province. Its school inspectors maintain constant contact with the schools and teachers. Inspectors residing in their

inspectors co-operate with school boards to the end that the schools may best serve the needs of the pupils. Both the resident inspectors and staff inspectors who are specialists in particular subjects of the school program assist teachers to improve their practice so that classroom work may match the changing requirements of students in a society which is itself in a state of flux.

Since the establishment of Area Offices in the Province (see page 12), many of the functional aspects of the Division are now being undertaken at the area level. Division officials at the head office work in close conjunction with the Area Superintendents in carrying out the policies of the Minister and the Department.

A continuing conversation is maintained with officials of the Curriculum Division whose function is complementary to that of the Supervision Division.

Integration of Elementary and Secondary Education

One of the purposes of the departmental reorganization was to bring the elementary- and secondary-school panels of the school system more closely together with a view to serving more effectively the best educational interests of the pupils. The Supervision Division of the Department now combines the supervision and assessment functions of the former elementary and secondary branches. Program Branch, of which Supervision is one segment, reports through the Assistant Deputy Minister, Instruction, to the Minister. In the field, the inspectors, regardless of jurisdiction, are now called inspectors of schools. At the head office, assistant superintendents, who formerly were responsible for either elementary or secondary education, are now responsible for both on a geographical or functional basis.

Particular emphasis has been given to integration of the inspectors' supervisory and assessment functions in the Intermediate Division (Grades 7-10), so as to encourage all inspectors affected to familiarize themselves with courses and classes which were previously outside their immediate responsibility.

With the objective of improving learning conditions for all students, many positive steps have been taken to stimulate the interests and activity of people in supervisory positions by extending their spheres of observation and action. Joint conferences have been held to bring together men and women of varied experience so that their combined talents may be brought to bear on common problems. Various techniques are being used to link the elementary and secondary panels more closely, for example: joint meetings of elementary- and secondary-school boards; programs for the induction of elementary-school pupils into secondary-school procedures, and the provision of guidance programs in elementary schools; frequent meetings of elementary- and secondary-school personnel on curriculum committees, to consider promotion policies, and for the discussion of common concerns and educational philosophy.

Decentralization

Another basic aim of the departmental reorganization was to achieve more efficient and effective operation within a streamlined structure. Decentralization is one of the methods by which this aim is being pursued.

As a first step, the Province is being divided into areas of educational jurisdiction, each under an Area Superintendent who will be responsible for all elementary and secondary education within his area.

Under the new organization, which is gradually replacing arrangements previously

in force, many decisions relating to local needs, which were formerly made at the central office, will now become the responsibility of the Area Superintendent.

The first five Area Offices, which were established on September 1, 1965, are located as follows:

AREA 1, NORTHWESTERN ONTARIO, at Port Arthur (Districts of Kenora, Rainy River, and Thunder Bay)

Area Superintendent, R. R. Steele, B.A., M.Ed.

AREA 2, MIDNORTHERN ONTARIO, at Sudbury (Districts of Algoma, Sudbury, and Manitoulin)

Area Superintendent, G. R. Allan, B.A.

AREA 3, NORTHEASTERN ONTARIO, at North Bay (Districts of Cochrane, Timiskaming, Nipissing, Parry Sound, and Muskoka)

Area Superintendent, J. H. Kennedy, B.A.

AREA 4, WESTERN ONTARIO, at London (Counties of Essex, Kent, Lambton, Elgin, Middlesex, Huron, and Bruce)

Area Superintendent, W. T. Laing, B.A.

AREA 5, MIDWESTERN ONTARIO, at Waterloo (Counties of Grey, Wellington, Waterloo, Brant, Norfolk, Oxford, and Perth)

Area Superintendent, R. F. Bornhold, B.A., M.Ed.

The number of areas will be increased progressively to embrace the entire Province. Provincial elementary- and secondary-school inspectors in each of the areas work under the direction of the Area Superintendent and municipal supervisory officials in both the elementary and secondary panels in the area deal with the Superintendent in matters affecting the Department. The Superintendent, in addition to co-ordinating the work of all school inspectors in his area, maintains a close association with the superintendents of municipal inspectorates within the same territory in order that efficient use may be made of all the available educational resources.

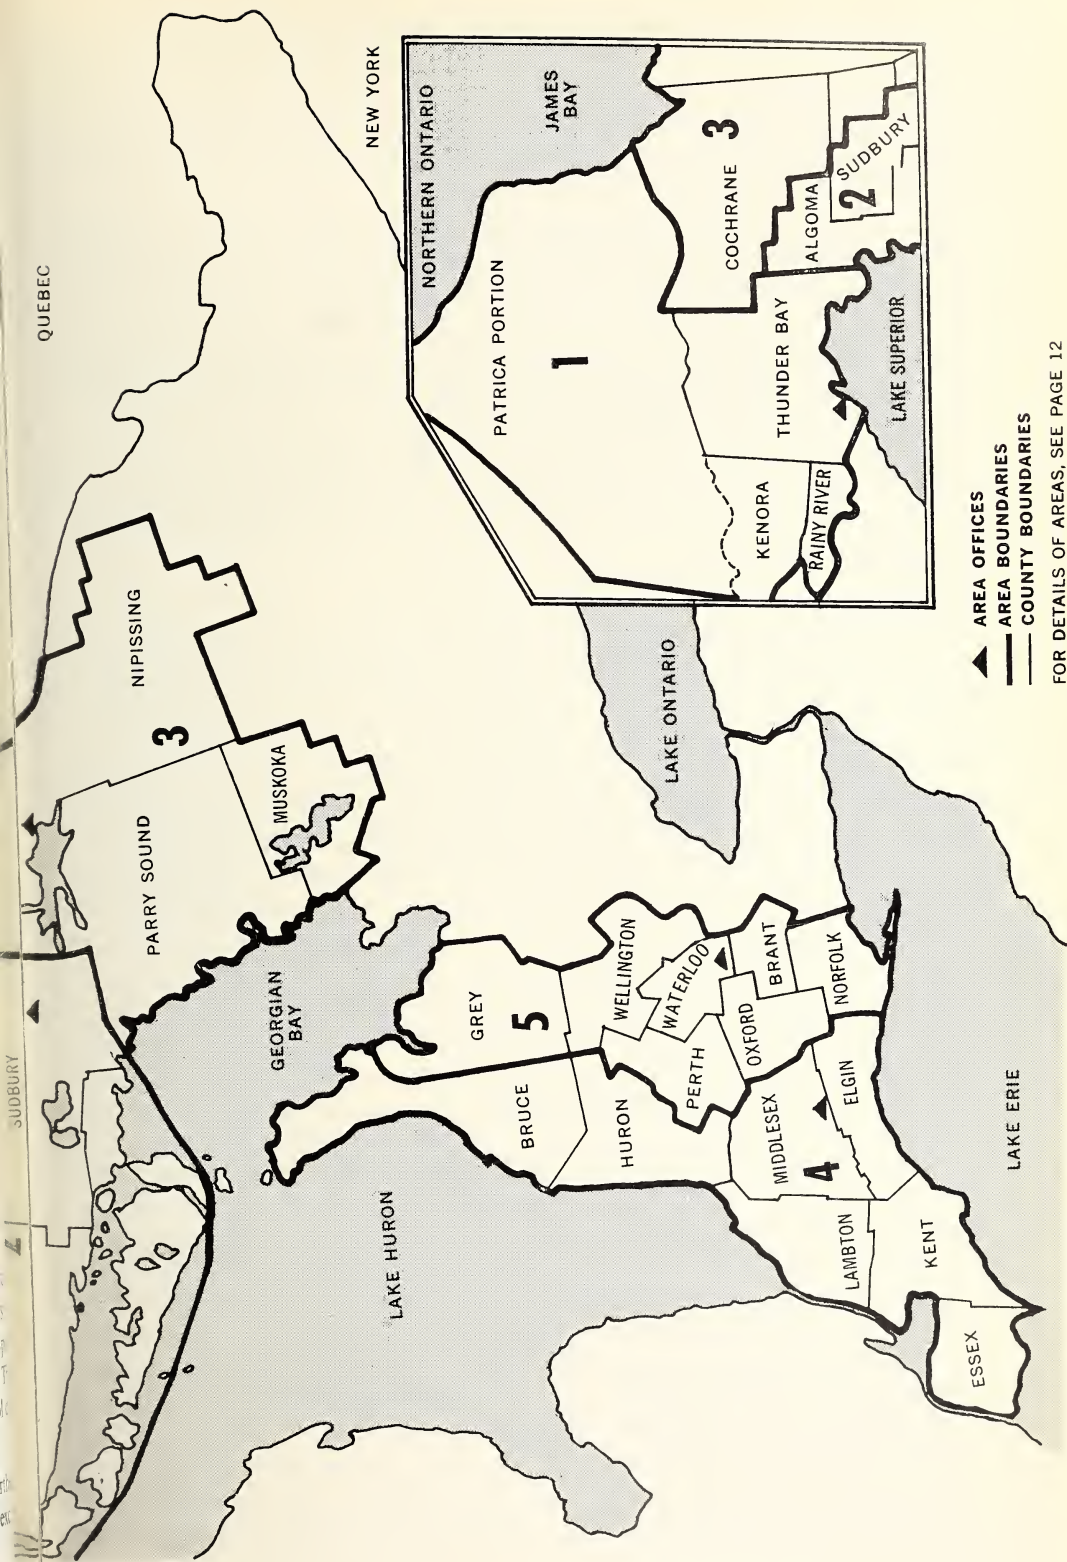

In due course, it is planned to attach business administrators to each Area Office to take over most of the administrative detail associated with building programs, transportation and school grants, so that inspectors can concentrate on educational tasks.

Once supervisory and administrative responsibility is centred in organized areas covering the Province, a great variety of problems can be solved at the area level and the careful but quick decisions that are called for in the rapidly expanding and changing educational system of Ontario will be facilitated.

Larger Units of Administration

The passage of Bill 88, An Act to Amend the Public Schools Act, by the Provincial Legislature during 1965 extended the existing legislation concerning larger units of administration. Under the new provisions, county school areas for public school purposes can be established in the municipalities that form a high school district. This means that a county school area will have to be at least as large as a high school district.

The county councils in Southern Ontario and the municipal councils in Northern Ontario now have the authority to alter the boundaries of all school sections except those involving cities or separated towns.

Provision is also made for the county council, on the recommendation of the consultative committee (which is appointed under the authority of the Public Schools Act), to enlarge school areas by joining them together, provided no school section has fewer than 120 pupils. To further the process of consolidating school areas, the county councils are now required to pass by-laws attaching all school areas with fewer than 100 pupils to adjoining school areas.

In accordance with the new legislation, a number of county and district school areas and enlarged township school areas were established during 1965. Among them were the Peterborough County School Area, comprising the entire County of Peterborough; the Prescott County School Area, comprising the entire County of Prescott; and the South Grey Board of Education, which was set up to serve three urban municipalities, two townships and portions of two other townships. In the north, two district school areas have been formed in the District of Algoma.

The duties and responsibilities of the public school consultative committees have been broadened and it is expected that, in the near future, county councils in the south and municipal councils in the north will establish more larger units of administration.

Special Education Section

General

In the refashioned departmental pattern, the former Auxiliary Education Services Division became the Special Education Service of the Supervision Division, Program Branch. Decentralization of service has begun with the appointment of an Inspector, Special Education, to the West Central, East Central and Kingston offices.

The regulations concerning Special Education that became effective in June, 1964, attempted to provide a legal framework retaining successful elements of past practice and incorporating innovations which would encourage the establishment of advantageous new services. A review of Table 6.3 indicates the increase in the number of classes now available for emotionally disturbed pupils and educable retarded pupils at the level of the primary opportunity class.

Services

Special education is concerned with the educational growth of all exceptional children of school age. Exceptional children are those who for physical, intellectual, social or emotional reasons are in need of a modified or special educational program. Such children include those who are superior in learning capacity; those of limited intellectual ability; those who are socially immature or emotionally disturbed; those with orthopaedic, neurological, physical or speech disability; and those who are educationally retarded.

In the course of the year 1964-65, Special Education Inspectors assisted local school authorities through:

- (1) 446 visits to special classes, special teachers and schools where units are established to assist the teachers concerned;
- (2) work with 141 children referred for assistance in the diagnosis of the problem and the development of an appropriate educational program;
- (3) assistance in the establishment of new services by
 - (a) the organization of 21 surveys,
 - (b) the assessment of children,
 - (c) working with the local staff and school boards; and

- (4) participation in 54 in-service training programs for teachers on special education topics, in relation not only to special classes but also to atypical pupils in regular grades.

A library of approximately 6,775 magnatype books is maintained to assist pupils with limited vision, as well as a professional library of some 2,000 books for the free use of teachers and inspectors.

During August, the Department of Education and the Parents' Association for Children with Learning Disabilities co-sponsored a one-week training program for teachers and parents of neurologically impaired children.

Summer Course Training

Summer courses leading to the elementary, Intermediate and Specialist Certificates in Auxiliary Education were offered at Toronto. Courses at the elementary level were offered also at North Bay and Belleville. Eleven different options covering various areas of exceptionality were available. During 1965, a new option, The Education of Emotionally Disturbed Children, was introduced at the intermediate level and proved to be highly successful.

A total of 1,255 candidates attended the summer courses in special education, representing an increase of 144 over the previous year. One hundred and twenty teachers completed the summer school attendance requirements for the Specialist Certificate in Auxiliary Education.

School Attendance

Enrolment

The total enrolment in elementary and secondary schools in September 1965 was 1,738,781 an increase of 65,007 or 3.9% over the preceding year. The elementary schools showed an increase of 41,570 or 3.25% and the secondary schools an increase of 23,437 or 5.9%.

Employment and Home Permits

A child who has attained the age of 14 years may be granted a home permit or an employment certificate if his services are urgently required at home or in some gainful occupation elsewhere. A child under 14 years of age may be granted a home permit or an employment certificate for a period of not more than six weeks in a school term.

The total number of employment certificates issued during the year 1964 was 2,252, a decrease of 872 from the figure for the preceding year, and the total number of home permits issued during the same period was 1,177, a decrease of 133 from the previous figure. The total number of cases brought before magistrates was 413.

The Teaching of French to English-Speaking Pupils

At the end of November, 1965, French was being taught to English-speaking pupils in schools operated by 231 public and separate school boards.

In these elementary schools, 164,145 pupils were receiving such instruction in regular classroom grades and 2,590 pupils in special classes, making a total of 166,735 pupils. Special or itinerant teachers employed by boards to teach French only or French as well as other subjects numbered 581. In addition, 537 regular classroom teachers included this special subject in their teaching.

In the autumn of 1965, a representative Departmental Curriculum Committee was

appointed to prepare a course of study for Grades 7 and 8. It is expected that this will be available to schools in the spring of 1966.

The supply of teachers for the elementary-school program is increasing. Apart from the regular summer course, which was successfully completed by 125 teachers, a new course was offered for mature men and women who speak French fluently but who may not have had any previous teaching experience. This course attracted many Ontario residents originating from Quebec, Western Europe, North Africa and other parts of the world. One hundred and twenty-five persons completed the course and earned a temporary certificate, renewable annually upon the recommendation of the inspector.

One hundred students registered at the Lakeshore, Ottawa, Toronto and Windsor Teachers' Colleges were accepted for the new course in teaching French offered for the first time this year to a select group of students enrolled in these colleges.

The establishment of a provincial course of study and the training of a greater number of teachers qualified to teach this special subject will be major factors in advancing the teaching of French in the elementary schools.

Schools Attended by French-Speaking Pupils

Teacher Supply

On October 15, 1965, there were 386 French-speaking student teachers in attendance at the University of Ottawa Teachers' College and the Sudbury Teachers' College, 78 of whom were enrolled in the course leading to the Interim Elementary School Teacher's Certificate and 308 in the course leading to the Interim Second Class Certificate.

In 1929-30, 25% of French-speaking teachers held First and Second Class Certificates; in 1965-66, 96.6% of French-speaking teachers hold Standard I or Second Class Certificates.

Secondary-School Enrolment

On September 30, 1965, the total enrolment of French-speaking pupils taking Français in secondary schools was 7,985, an increase of 980 over 1964. There were, in addition, 5,612 French-speaking pupils enrolled in Grades 9 and 10 of elementary schools.

Elementary-School Enrolment

On September 30, 1965, 92,274 French-speaking pupils had enrolled in separate and public schools, an increase of 1,605 over the preceding year. The number of French-speaking pupils in Kindergarten classes was 8,863.

Correspondence Courses

Correspondence courses for French-speaking pupils in Grades 1 to 8 have been available since 1942. The number of pupils taking these courses in November, 1965, was 30. The decrease in enrolment, compared with previous years, is due to the increasing number of schools being built in remote parts of the Province or to the provision of transportation facilities making it possible for pupils to attend central schools.

Inspection of Indian Schools

The Indian Affairs Branch of the Department of Citizenship and Immigration has an arrangement with the Government of Ontario by which Civil Service school in-

spectors make an annual inspection of the Indian schools in this Province. These inspections are carried out to ensure that the Indian schools are following the program laid down in the Ontario Courses of Study. As a result, Indian children leaving Grade 8 in the Indian schools may be integrated into classes in provincial secondary schools. During the school year 1964-65, 32 provincial school inspectors inspected 253 classrooms operated in schools under the jurisdiction of the Indian Affairs Branch.

Ontario Athletic Leadership Camp

The Ontario Athletic Leadership Camp at Longford Mills was inaugurated in the summer of 1948 as an experiment to develop the leadership potential of the Province's youth. Since then, the camp has grown in acreage, buildings, numbers of students and of staff. Each year one girl and one boy from each secondary school in the Province is eligible to attend one of the two-week courses. Recent surveys have shown that the aims of the camp are being fulfilled since the vast majority of the students are continuing their training in universities, Teachers' Colleges, nursing institutions, or in other forms of advanced education.

Transportation

The steady increase in transportation services which has been maintained for a number of years continued in 1964-65.

New legislation pertaining to all the school boards is now in effect. Where a board provides transportation for more than 30 pupils, the board may, with the approval of the Ontario Municipal Board, make an agreement for a term not exceeding five years. Previously, only secondary-school boards could make such an agreement.

Elementary Schools

During the school year 1964-65, elementary-school boards provided transportation for 180,061 pupils, an increase of 16.5% over the figure for the previous year. Included in this number were 8,932 secondary-school pupils residing outside any high school district. Of the 5,513 routes over which these pupils were transported, 677 were routes on which vehicles owned by boards transported 31,527 pupils. This represents an increase over 1963-64 of 16% in the number of routes and 13% in the number of pupils.

Seventy-eight per cent of the pupils transported resided within six miles of the school which they attended, 17% from 6 to 12 miles, and 5% of those transported travelled a distance of 12 miles or more.

Provision has been made for an elementary-school board in the districts of Northern Ontario to pay \$3 per day board allowance in lieu of daily transportation for its pupils who do not reside in a secondary-school district and who reside 15 miles or more from the nearest publicly supported secondary school. The Department of Education refunds to the board the grant percentage applicable to the school section on such expenditures.

Secondary Schools

During the school year 1964-65, secondary-school boards provided transportation for 104,156 pupils, an increase of 12% over the figure for the previous year. These pupils were transported over 2,522 routes at a cost of \$52,990 per day. The number of routes by vehicles owned by boards was 163, an increase of 17% over 1963-64, while

the number of pupils on these routes increased by 1,400, which represents an increase of 24% over last year.

Sixty-five per cent of the pupils transported resided within six miles of the school which they attended, 23% from 6 to 12 miles, and 12% of those transported travelled a distance of 12 miles or more.

In the case of secondary schools without vocational courses, pupils in the area who elect to take such courses are transported by the boards concerned to a secondary school which offers vocational training in another high school district.

Scholarships and Bursaries

During the fiscal year 1964-65, the Department of Education awarded scholarships and bursaries to Ontario students taking courses in specified institutions. The total expenditure for this purpose was almost \$2,400,000.

Scholarships

Ontario Scholarships of \$400 each are granted to graduates of Grade 13 who obtain at least 80% on eight Grade 13 departmental examinations, including English or Français. On the examinations of 1964, 1,226 persons qualified academically for these awards.

The highest-ranking Ontario Scholar each year is awarded the King George VI and Queen Elizabeth Scholarship which carries a value of \$500 for each year of a three- or four-year university degree course in Ontario.

Bursaries

Student-Aid Bursaries are granted to Ontario residents in financial need who meet the academic requirements of second-class standing, and who are attending full-time courses in the following institutions: Canadian universities, Ontario Colleges of Education, Osgoode Hall Law School, Ontario College of Art, Ontario Teachers' Colleges, Provincial Institutes of Technology and Ontario secondary schools (final year only).

The amounts of the bursaries vary from \$100 to \$500, depending on the school and course attended and the financial need of the individual applicant. In 1964-65, almost 7,200 students benefited from these awards which represented a total expenditure of over \$1,950,000. Of this sum, approximately \$149,000 was contributed by the Federal Government.

Trustee Organizations in Ontario

A summary was prepared in 1965 of the number of school boards which were members of the affiliated organizations of the Ontario School Trustees' Council in the previous year; the results are tabulated below. Each organization listed appoints two representatives to the Council.

	1964			
<i>Organization</i>	<i>Secondary</i>	<i>Public</i>	<i>Separate</i>	<i>Total</i>
The Associated Secondary School Boards of the Province of Ontario	92	—	—	92
L'Association des Commissions des Écoles bilingues d'Ontario	—	3	222	225
The Ontario School Trustees' and Ratepayers' Association	89	618	3	710

Ontario Separate School Trustees' Association	—	—	345	345
The Public School Trustees' Association of Ontario	21	362	—	383
Ontario Urban and Rural School Trustees' Association	81	69	7	157
Northern Ontario Public and Secondary School Trustees' Association	34	46	—	80
TOTALS	317	1,098	577	1,992

Teacher Education Branch

Reorganization

Under the new departmental structure, this Branch, formerly concerned only with the supervision of the Teachers' Colleges, was given additional responsibilities. Consequently, the Teacher Education Branch now supervises the training and professional development of elementary-school teachers, maintains close liaison with the Colleges of Education in Toronto and London, and provides summer courses in several subject areas for secondary-school teachers.

Teacher Supply

Elementary

It was decided in 1964 to discontinue the Two-year Course in the Teachers' Colleges. The last group of students to train as teachers under this emergency scheme, which was launched in September, 1953, entered the Teachers' Colleges in September, 1964. Enrolment in the One-year Course increased from 3,868 in 1964 to 4,558 in 1965. In addition, 85 applicants with university degrees enrolled in special courses for graduate students at the London and Toronto Teachers' Colleges, and 40 students enrolled in the Primary-School Specialist Certificate Course at Toronto. In the One-year Second Class Course offered at the Sudbury and University of Ottawa Teachers' Colleges, the enrolment increased by 14 over the previous year's level to reach a total of 308.

In September, 1965, a new St. Catharines Teachers' College began operations with an enrolment of 219 students in quarters rented from Brock University. A new building for this institution is now being planned and new accommodation for the Sudbury Teachers' College is also being provided.

Teacher Supply

Secondary

In 1965, the registration in the Initial Eight-Week Summer Course, held at Kingston, London and Toronto, reached an unprecedented high of 2,244, an increase of 292 over the previous summer's figure. The opening of the Althouse College of Education at London in September, with an enrolment of 197, had little effect on the registration in the Winter Course at the College of Education, Toronto. The total of students registered in the Type A and Type B full-year courses in both London and Toronto was 726, a net rise of 160 students over the previous year's registration at Toronto alone.

The increase in the number of teachers who registered in courses leading to Vocational, Commercial and Occupational Certificates has kept pace with the pupil enrolment in these courses.

A total of 360 teachers holding certificates valid in elementary schools obtained qualification as teachers in secondary schools by attending the Summer Course for Teachers with Professional Training. In addition, 28 female teachers holding Permanent Elementary-School Certificates enrolled in a summer course in Physical Education, with the understanding that they would commence to qualify for a university degree through summer school and extramural study.

Registration in Type A Summer Seminars increased from 493 in 1964 to 560 in 1965. In all, 4,052 candidates took initial training leading to secondary teaching certificates during the year, an increase of 458 candidates over the total for the previous year. The number of teachers who received summer-course training in 1965 rose to 8,049, as compared with last year's total of 7,222.

By November 30, 1965, 1,521 Letters of Permission had been issued to boards on behalf of secondary-school teachers not holding secondary-school teaching certificates. From February 1, 1965 to November 30, 1965, secondary-school Letters of Standing were issued to 51 well-qualified teachers.

New Courses

A pilot course in the teaching of French to English-speaking pupils in the elementary schools, begun at Ottawa in 1964, was extended in 1965 to the colleges at Toronto, Lakeshore and Windsor. One hundred and sixteen well-prepared students whose oral French was graded excellent were admitted to the course, which provides for daily conversation in French and twice-weekly classes in teaching methods.

At Toronto Teachers' College, 71 university graduates enrolled in a reorganized course for elementary-school teachers designed for applicants with acceptable degrees. This course features hour-long lecture periods, programs involving large and small group instruction, seminar discussions and special demonstrations. Final examinations will be held in Educational Psychology, School Management, History and Philosophy of Education, Methods in English, and Methods in subjects other than English.

At the Althouse College of Education, London, 14 students enrolled in a course organized on a co-operative basis by two colleges: instruction in Educational Psychology, History and Philosophy of Education, and one secondary-school option was provided by the Althouse College of Education, while instruction in School Management and Elementary-school Methods was arranged by the London Teachers' College. Successful graduates from this course, whose practice-teaching experience includes work in the secondary schools, will obtain an Elementary-School Teacher's Certificate, Standard 4, endorsed for the teaching of one option at the secondary-school level, Grades 9 to 12.

Evaluation of these courses at the end of the college year in 1966 will help to determine whether they should be continued in their present form.

McArthur College of Education, Kingston

Agreement was reached with Queen's University, Kingston, to establish a new College of Education to be known as the McArthur College of Education at Queen's

University. The planning of the college building was begun in the year under review. This new institution will provide additional space for the training of secondary-school teachers in academic and vocational work. The name of the College honours the memory of Dr. Duncan McArthur, one-time head of the history department of Queen's University, and a former Chief Director and Deputy Minister of Education for Ontario who later became Minister of Education, 1940-43.

Extension of Jurisdiction of Certificates

Any holder of a Permanent Elementary-School Teacher's Certificate, Standard 4, may now, upon accepting a contract from a board to teach in a secondary school, be granted an Interim High-School Assistant's Certificate, Type B. Similarly, any holder of a Permanent High-School Assistant's Certificate may, upon accepting a contract to teach in an elementary school, be granted an Interim Elementary-School Teacher's Certificate, Standard 4.

Most of such transfers are likely to take place in the general range of Grades 7 to 10. Teachers transferring to grades outside this range can obtain advice from Teacher Education Branch regarding summer courses which may help them in adjusting to their new duties.

Letters of Standing and Permission

Letters of Standing, granted during the school year 1964-65 to elementary-school teachers trained in other provinces of Canada or in other countries of the Commonwealth, totalled 898, an increase of 312 over the previous year. Letters of Permission, issued on behalf of uncertificated teachers, totalled 1,302 at the end of November, 1965, an increase of 238 over the previous year. Of the latter category, 473 were issued to teachers who held basic certificates but lacked qualification for their special work.

Minister's Committee

A Study Committee on the training of elementary-school teachers has been meeting regularly since September 1964. At the close of 1965, the Committee had almost completed its work and its report to the Minister was expected to be available early in 1966. Recommendations in the report may well form the basis of new plans for the training of elementary-school teachers in Ontario.

PROFESSIONAL DEVELOPMENT DIVISION

In 1965, in response to increasing demands, the Department of Education summer course program for teachers was expanded to include 46 schools offering 21 different types of course in 20 Ontario communities stretching from Windsor to Dryden. The 11,826 teachers who enrolled represented an increase of approximately 20% over the 1964 totals.

Courses in Language Arts and Teaching the Deaf as well as a Special Course in Teaching French to English-speaking Pupils, were offered for the first time.

New courses planned for 1966 include an Intensive French Conversation Course at Elliot Lake for 200 Ontario teachers, and a series of updating courses in Physics, Chemistry, and Mathematics for Grade 13.

Twenty-nine school boards received permission from the Minister of Education to conduct 33 winter courses for departmental certification credit. The Professional Development Division supervises these programs.

The number of teachers attending summer and winter courses and other types of in-service programs indicates an ever-increasing interest in improving qualifications.

Technological and Trades Training Branch

The Technological and Trades Training Branch assumed responsibility, within the revised departmental arrangements, for the supervision of all aspects of post-secondary and adult education, other than university courses. The Branch also administers the various programs of the Federal-Provincial Technical and Vocational Training Agreement, as related to Ontario. A significant development in educational philosophy during 1965 was the introduction of a plan to set up Colleges of Applied Arts and Technology as a means of extending additional opportunities for continuing education to the citizens of the Province.

Colleges of Applied Arts and Technology

Legislation for the establishment of Colleges of Applied Arts and Technology was passed in June, 1965, and the regulations pertaining to this legislation were published in the Ontario Gazette on November 6, 1965. A Council of Regents, already appointed, will assist the Minister in the planning, establishment and co-ordination of the programs of instruction. Each college will be administered by a Board of Governors, to be assisted by Advisory Committees in the development of programs for each course.

Although the programs of instruction will vary from college to college as local needs dictate, each college will, in general, have three major responsibilities:

- (1) to provide technological, technical, trades, business and applied arts courses of types and levels beyond or not suited to the secondary-school setting;
- (2) to meet the needs of graduates from any secondary-school program, apart from those wishing to attend university; and
- (3) to meet the educational needs of adults and out-of-school youth, whether they are secondary-school graduates or not.

Institutes of Technology

In September, 1965, the five Institutes of Technology in Ottawa, Hamilton, Windsor, Haileybury, and Kirkland Lake enrolled 2,536 full-time students in three-year technological and business administration courses. This represents a 26% increase over the 1964-65 enrolment. In order to accommodate the rapidly increasing demand for post-secondary education at the level in question, most of the Institutes of Technology found it necessary to rent additional temporary classroom space for the 1965 fall term. All five institutes require building programs to provide facilities adequate for the efficient performance of their educational function.

In October, 1965, there were 2,146 part-time students enrolled in advanced technical and business evening classes in the Institutes of Technology. This 29% increase in evening-school registration is an indication of the rising interest in continuing education at the level offered.

Ryerson Polytechnical Institute

Full-time students enrolled in the three divisions—Engineering Technology, Business, and Applied Arts—of the Ryerson Polytechnical Institute in September, 1965, numbered 3,687. In May, 1965, Ryerson adopted the trimester system to increase the net capacity of the institute by conducting classes during the summer. Two classes in engineering technology and two in business administration were enrolled in the 1965 summer term. A further 7,540 part-time students registered for extension classes in the fall term.

The Board of Governors of the Ryerson Polytechnical Institute is planning a unique extension to the campus which is intended to increase the capacity of Ryerson to 10,000 full-time students by 1970.

Advanced Technical Evening Classes

In 1965, Advanced Technical Evening Classes were available at four Institutes of Technology, two Ontario Vocational Centres, the Provincial Institute of Trades and at 24 secondary schools across the Province. The enrolment of adult students in September, 1965, exceeded 5,000; their interests ranged over more than 55 different technological subjects. The enrolment figure represents an increase of 70% in one year.

An increasing number of holders of A.T.E.C. certificates at each of the three available levels are being certified as Engineering Technicians or Engineering Technologists by the Certification Board of the Association of Professional Engineers of Ontario. Appropriate A.T.E.C. certificates are now recognized by the Chemical Institute of Canada. The program continues to be well supported by industry, and graduates are improving their positions as engineering technicians and technologists.

Ontario Vocational Centres

The Ontario Vocational Centre in Sault Ste. Marie opened its doors to students for the first time on September 27, 1965. Initial enrolment in this most recent of the Centres was 315 students, drawn from more than 30 localities in Northern Ontario. A total of 20 courses which are designed to meet the specific requirements of Northern Ontario are being conducted at this Centre.

The Ontario Vocational Centres in London and Ottawa commenced their second year of operation in September, 1965. With technician students returning for the second-year courses and an increasing number of students enrolled in apprenticeship, pre-employment, and commercial courses, these two Centres are now at full capacity. The Vocational Centre courses are designed to meet the need for post-secondary education of students who successfully complete four years of any secondary-school program.

Vocational Centres, together with the three Institutes of Trades in Toronto, enrolled a total of 2,889 full-time students in September, 1965. Since there are several intakes of apprentices during the school year, some 3,400 additional students are expected to register in the course of the year.

Training, Business and Industry

Under Program 4 of the Technical and Vocational Agreement with the Government

of Canada, over 100 courses in management for owners and managers of small businesses have been conducted during 1965. Three new courses—Finance and Taxation, Personnel, and Retail Selling—were added during the fall.

The pilot project for a new course called Effective Supervision was conducted in conjunction with one industrial firm in the Toronto area. Plans were made to launch early in 1966 twenty-five courses for supervisory persons in other places.

In view of the success of pilot projects designed to assist industry by providing courses for employees, particularly in English, Mathematics and Science, more employers have adopted this approach to provide the concept of career security for their staff members. At present, a large number of companies reaching from Atikokan to Hawkesbury and from Timmins to Metropolitan Toronto are offering upgrading and skill courses. A range of more than 40 skill courses is now offered. Ontario Civil Service employees in the Toronto area are taking updating courses in the clerical field for two hours a day on four days a week.

Training of Unemployed

Although the total number of unemployed persons decreased considerably during 1965, there was a 54% increase in enrolment in retraining courses operated under Program 5 of the Technical and Vocational Training Agreement with the Federal Government. By December 31, 1965, 8,158 students were enrolled in 43 different courses conducted in 40 centres across the Province. Although such factors as rising population figures and increased awareness of the value of the programs were partly responsible for the increased enrolment, much of the success of this program was due to the opening of an Adult Training Counselling Centre in Toronto. During October, 769 persons reported to the Centre for orientation; 444 were posted to one of the training centres within the Toronto area; and 1,203 persons received counselling.

Along with the usual commercial and shop courses, there has been a significant increase in the number of classes for the upgrading of adults to prepare them for vocational courses. Some 200 persons with less than Grade 6 education were brought to centres in Elliot Lake, Quetico, Ottawa and Petrolia for special upgrading courses. A course in rustic furniture manufacturing was developed on the Cape Croker reservation for unemployed Indians there.

It was previously necessary for landed immigrants to wait for a period of six months from the date of their arrival in Canada before becoming eligible for courses. Reduction of this waiting period to 30 days made possible the initiation of a special course in English for skilled immigrants who could not find employment owing to language difficulties.

In June, 1965, a new kind of educational venture was launched at the Elliot Lake Centre for Continuing Education when a group of 50 white and Indian students were enrolled in an experimental full-time residential course to determine the best means of teaching basic reading and writing skills to a group of adults whose educational background varied from no former schooling to attainment at the Grade 6 level. The Centre for Continuing Education is operated by a Board of Governors and is financed through the Federal-Provincial Technical and Vocational Training Agreement. Renovation of eight apartment blocks in Elliot Lake will provide classrooms and living quarters for up to 800 residential students.

Special Schools and Services Branch

Within the new departmental framework, the former Special Educational Services Branch was renamed the Special Schools and Services Branch. In accordance with the principle of integrating all school inspection activities under the jurisdiction of the Program Branch, the staffs of the former Auxiliary Education Services Division were transferred to the Program Branch and the inspectors were assigned to Area Offices in keeping with the decentralization program which was one of the objectives of the reorganization.

The Special Schools and Services Branch, in its turn, assumed control of the Community Programs Division and a newly established Schools for Retarded Children Division. In addition, the Branch is responsible for the Ontario Camp Leadership Centre at Irondale and the Ontario Athletic Leadership Camp, Longford Mills, which are administered through the Community Programs Division.

The Branch administers a vote designed to provide assistance to the handicapped for whom no other provisions are available. This assistance is provided through the establishment of Habilitation Units. Requests for assistance are considered individually; during 1965, a total of 53 units were approved. Through these units, the Department contributed towards the cost of tutoring for Grade 13 blind students, transportation for temporarily physically handicapped children, fees for two blind and deaf children who attend the Perkins School for the Blind near Boston, U.S.A., correspondence courses for patients in sanatoria, and a variety of other services.

At present, the Special Schools and Services Branch is composed of the Schools for the Blind and Deaf Division, the Schools for Retarded Children Division, the Community Programs Division and the Correspondence Courses Division.

SCHOOLS FOR THE BLIND AND DEAF DIVISION

This Division is responsible for the administration and supervision of the residential Schools for the Blind and Deaf and also for the supervision of day classes for the deaf operated by local school boards. Consultative services are provided to school boards in the establishment and administration of such day classes for the deaf.

Close liaison is maintained by the Division with the Canadian Hearing Society and the Canadian Institute for the Blind in matters relating to the training of deaf and blind children respectively.

Ontario School for the Blind

Enrolment

The Ontario School for the Blind began the school year in September, 1965, with an enrolment of 247, made up of 144 boys and 103 girls. At the close of the previous school year in June, 1965, 31 students withdrew—21 after graduation, 4 to seek employment, 3 by transfer to another province and 3 for reasons of health. The September enrolment included 27 students new to the school, among them 11 beginners and 16 scattered through Grades 2 to 12. In addition to the 188 Ontario children, 5 are from Alberta, 23 from Saskatchewan, 18 from Manitoba and 8 from Quebec; 1 child is a Bermudan, while 2 Eskimo and 2 Indian pupils are wards of the Federal Government.

Program

The varying needs of visually handicapped children are met by a specially trained staff of teachers and residence counsellors. Using the Ontario Courses of Study, Grades 1 to 12, as a base, the school offers a comprehensive program of academic, vocational, physical, cultural and social education providing opportunities for blind children to develop into independent, self-supporting adults. The academic courses are designed to prepare students for a university, while the vocational courses assess potential for future employment. Instruction in all phases of home economics for girls and training in the use of the white cane are indicators of the emphasis that is placed on the acquisition of skills for independent living.

The music staff provide classroom music throughout all elementary and secondary-school grades. Opportunities exist for the development of individual talent or interest, to the limit of ability. Except where medical considerations dictate otherwise, full participation in an active physical education program, both indoor and outdoor, is required of all students. Different types of ball games, hockey, skating, and track and field sports are popular. Extracurricular activities such as Cubs, Scouts, Guides, Brownies, social clubs, a United Nations Club and a French Club provide opportunities for the cultivation of a variety of interests.

Current changes in the teaching of mathematics across the Province are being paralleled in the School. A form of the abacus, especially adapted for use by the blind was introduced in Grades 4 to 12 in September. It was received eagerly by the students and has already become an integral instrument of calculation in mathematics. Another innovation in 1965 was the beginning of oral French classes in Grades 5, 6, 7 and 8.

Graduates

Ten students completed Grade 12 in June and were awarded Secondary School Graduation Diplomas. Of these, five are enrolled in universities and two are taking Grade 13 prior to entering a university; the others are undergoing training, one to be a home teacher of the blind, another to be a dictaphone typist and still another to do clerical work. Those who withdrew from the school after completing Grade 10 are either being prepared for employment or have secured positions.

Accommodation

A new residence with accommodation for 60 boys was ready for occupancy in September. Adequately equipped and beautifully furnished, it has relieved the crowded conditions which had developed in the other boys' residence and provides facilities for an increase in enrolment of 30 boys.

Ontario School for the Deaf, Belleville

Enrolment

The Ontario School for the Deaf, Belleville, was able to accept all eligible deaf children from Central, Eastern and Northern Ontario who had reached the age of 5 years before September 1, 1965, who applied for and needed its services, and who were mentally, physically and socially ready to profit from its program. In cases of doubt concerning readiness, trial periods of attendance were arranged. Thirty beginners, aged 5 to 8 years, and 15 older students were newly enrolled. The enrolment on October 15, 1965, was 507 (300 boys and 207 girls), all from Ontario and distributed as follows: Junior School 190, Intermediate School 105, Senior School 212. Pupils range in age from 5 to 20 years.

Program

The school aims at preparing deaf and severely hard-of-hearing children to become well-adjusted, self-supporting and respected adult citizens of their communities by providing a broad program of academic, vocational physical, social and religious education specially suited to their needs. Because of the language deprivation resulting from early deafness, the junior classes are considered as preparatory grades in which vocabulary and language development receive prime emphasis. In the senior classes, basic academic courses to the Grade 10 level and a variety of vocational courses are provided. An extensive program of physical education and recreation is conducted by teachers. This includes inter-school athletics, swimming at Albert College, skating and hockey at the Belleville arena, curling at the Quinte Curling Club, and such extra-curricular activities as clubs, hobby groups and driver instruction. Religious instruction is provided by teachers assisted by local clergymen.

To help parents develop early language skills in their young deaf children and prepare them for the school program, a home-visiting teacher was specially trained in the summer and added to the staff in September. A summer course for teachers of the deaf was conducted at the school in 1965 as part of the special training needed for teaching deaf children. Thirty teachers from the Belleville, Milton and Toronto Schools for the Deaf attended the course. Twelve of these are continuing their training at the Belleville School this year. A further eleven teachers who began their special training last year are also still under instruction this year. Twenty-one houseparents and two nurses from the Belleville School attended the summer course inaugurated at the Milton School in July and August 1965.

For the first time, all pupils were able to go home for the Easter vacation in April, 1965, as well as for the preceding Christmas vacation. Teacher escorts in charge of special rail coaches travel to main-line cities throughout the Province to make this possible.

As usual, the graduates of the school last June were assisted in finding employment in their home communities by Placement Officers of the Canadian Hearing Society, working in cooperation with parents and the guidance staff of the school.

Ontario School for the Deaf, Milton

Development

The construction of Stage II of the building program, which is progressing rapidly, is expected to be finished in time for inauguration in September, 1966. At that time, approximately 100 senior students from the Ontario School for the Deaf at Belleville will be enrolled and the school's program will then embrace all courses from the junior through to senior academic, and vocational training. Completion of Stage II will provide accommodation in 16 classes for intermediate and senior students and in eight classes for vocational courses. Two gymnasias and a swimming pool, as well as two residences, are included in the project.

Enrolment

In September, 1965, 250 children (130 boys and 120 girls) were enrolled. This represents a tripling of enrolment since the first buildings, constructed under Stage I of the project, were opened in April 1963. The home-visiting service accounts for a further 68 pre-schoolers, aged 2 to 4 years, who either are visited or who come to the school

where they are taught while their parents receive training. There is every indication that other such pre-school children will be discovered as the year progresses. A growing number of multiple-handicapped deaf children are being educated and suitable programs of instruction are being applied.

Program

This year has seen the establishment of four intermediate-level classes in addition to the 25 classes in the junior program. A curriculum closely parallel to that offered at Belleville is being evolved, with the identical aim of providing a comprehensive academic program, as well as vocational, physical, social and religious education, to prepare the children to be self-supporting, useful citizens.

SCHOOLS FOR RETARDED CHILDREN DIVISION

General Information

The new Schools for Retarded Children Division was formed in September, 1965, and is responsible for the educational programs in 93 day schools for retarded children operated by 88 Retarded Children's Education Authorities. In addition, this Division will be responsible for the educational programs in the Ontario Hospital Schools at Cedar Springs, Orillia, Palmerston, Smiths Falls, and the Children's Psychiatric Research Institute in London, effective April 1, 1966.

The operation of retarded children's schools by the Retarded Children's Education Authorities became effective as of January 1, 1965. Authorities are paid a grant of 80% of the cost of operation by the Department of Education while the remaining 20% is paid by the municipality concerned. The local Retarded Children's Association is responsible for providing the school premises and receives a 50% grant from the Department of Education for capital construction.

Services

Consultative service is provided for teachers, principals and local inspectors of retarded children's schools. During the school year 1964-65, 61 schools were visited and individual interviews were conducted with 186 teachers to discuss programs for trainable retarded children.

Other activities included participation in meetings with Retarded Children's Education Authorities, Retarded Children's Associations, Home & School Associations, and parent counselling.

A preliminary survey of the educational programs in the Ontario Hospital Schools was completed.

Summer Course Training

A five-week course for teachers of trainable retarded children was conducted in the summer of 1965 with an enrolment of 58 teachers.

COMMUNITY PROGRAMS DIVISION

Services

The Community Programs Division assists communities to provide better opportunities for people to use their leisure enjoyably and constructively through recreation and adult education. The assistance to communities involves grants, advice, guidance.

leadership training, conferences, seminars, clinics and surveys. The Division works in co-operation with municipal recreation committees; school boards; national, provincial and local organizations; and other departments in the Federal and Provincial Governments. Communications with the municipalities are maintained through a field staff which has offices in Belleville, Dryden, Fort William, Hamilton, Hanover, London, North Bay, Oakville, Ottawa, Toronto and Sudbury. There are also special advisers, working out of the central office, on such matters as art, crafts, drama, music, puppetry, senior citizens, recreation buildings and areas, rural programs, and women's physical fitness activities. In order to make resource material available for community use, the Division produces a number of publications and operates a loan service in drama, music, instructional films, slides and reference books.

Professional Training and Certification

The purpose of training and certifying workers in municipal recreation is to maintain and improve the standards of qualification of employees in this field. The three-year in-service training course which was initiated by this Division in 1951, through the University of Western Ontario, has served its purpose and was officially closed in June, 1965. In May, the first graduates from the two-year Diploma Course, operated by the Division at the University of Guelph, received diplomas. The majority of the 32 graduates were hired by municipal recreation committees while the others found employment in institutions, hospitals and private organizations.

Recreation Development

Ontario Regulation 92/60 Programs of Recreation, made under The Department of Education Act, provides provincial grants to municipalities that pass the necessary by-law to appoint a municipal recreation authority and conduct or assist local recreation programs. During the year 1965, some 23 municipalities established recreation committees for the first time. There were 117 recreation directors as well as 155 assistant directors employed by Ontario municipalities on a yearly basis. The sum of \$725,895 was paid to 356 municipalities to assist in the development of the recreation program.

Leadership Training

The training of leaders is a basic need in the fields of recreation and adult education. The Community Programs Division is continuously involved in training volunteer and semi-professional leaders in art, crafts, drama, music, executive skills, sports and group leadership. The Division conducts courses either co-operatively or directly if the training serves a number of communities jointly.

In co-operation with the Province of Ontario Council for the Arts, the Community Programs Division assisted in bringing together in April professional and semi-professional craft workers and community leaders in crafts to discuss mutual concerns. As a result of this meeting, the Ontario Craft Foundation has been established. Conferences on music, recreation and drama are being planned for the year 1966.

During 1965, 364 leadership courses were planned and organized to assist 18,293 community leaders.

Co-operation

In order to provide an efficient service in programs and leadership, the Community

Programs Division works closely with the following agencies: The Canadian Association for Adult Education; Ontario Federation of Home and School Associations; Ontario Arenas Association; Ontario Federation of Agriculture; Rural Learning Association; Ontario Recreation Association; Ontario Camping Association; various sports associations, and other Provincial and Federal Departments.

Fitness and Amateur Sport

Under the terms of the Federal-Provincial Agreement on Fitness and Amateur Sport, 108 projects were arranged at various locations in the Province for the development of coaches, referees and leaders in rowing, rugger, tennis, hockey, basketball, skiing, field hockey, wrestling, sailing, horsemanship, lacrosse, scuba diving, competitive swimming, water polo and many other sports. In 1965, bursaries in the amount of \$47,500 were provided for students enrolled in physical and recreation courses in Ontario universities.

Grants to Non-profit Camps

The Department of Education is aware of the educational value of progressive, challenging camp programs. Grants are paid to non-profit camps in accordance with Ontario Regulation 175/64, made under The Department of Education Act. Some \$66,000 was awarded in such grants during the last fiscal year.

The Department of Education also provides a consultative service to the non-profit camps in Ontario, conducts workshops for camp directors and employs 5 camp consultants to visit non-profit camps during the summer to assist and to give advice to camp leaders.

Ontario Athletic Leadership Camp

One boy and one girl from each secondary school in Ontario are eligible to attend a two-week course at the Ontario Athletic Leadership Camp, Longford Mills. Three hundred and eighty-four girls in July, and 384 boys in August were given a variety of athletic and camp activities to develop their leadership potential and ability to accept responsibility. Many students, as a result of such training in the past, have chosen the teaching profession as their life's work. The facilities of the camp are used by many provincial organizations during May, June, September and October for educational conferences.

Ontario Camp Leadership Centre

Three hundred and twelve counsellors-in-training, 192 girls and 120 boys, were selected by non-profit camp directors to attend the Ontario Camp Leadership Centre, Irondale. This campsite offers excellent opportunities for leadership experience through work in nature lore, camp craft, water safety, canoeing, orienteering, planning and a variety of other camp activities. As part of the plan, leaders who receive this training contribute a period of volunteer service to the sponsoring camp.

CORRESPONDENCE COURSES DIVISION

General Information

Free correspondence courses are available for any Ontario adult or child who is unable to attend school. Not only are the lessons provided and corrected free of charge

but all necessary materials are supplied and postage covered. Prior to September, 1964, textbooks had been lent only to students enrolled in the elementary-school grades. After September, 1964, the lending of free textbooks was extended to include students enrolled in Grade 9 and Grade 10; and since September, 1965, free textbooks have been lent to students enrolled in Grade 11 and Grade 12.

The elementary-school courses offered in English cover the courses of study from Grade 1 to Grade 8. Bilingual courses cover the same grades for French-speaking children. The academic courses offered at the secondary-school level are sufficient in number to enable students to qualify, by means of correspondence course instruction alone, for Departmental Statements of Standing and Diplomas at any grade level. During the year, courses in new-approach Mathematics, Physics and Biology have been prepared to meet recent developments in curricula. Courses in English, French and Latin have been revised to meet changes in prescriptions. New courses in commercial subjects are being prepared for presentation in September, 1966. All academic courses are available, free of charge, to residents of Ontario and to persons normally resident in Ontario but living temporarily outside the Province.

Eleven trades courses in the fields of Automotive Mechanics, Carpentry, Machine Shop Practice and Radio Theory and Practice are provided. These are available to any resident of Canada for a fee of \$10 per course. Through federal-provincial arrangements, numerous other trades courses have been prepared by the Departments of Education in the other provinces. These Canadian Technical and Vocational Correspondence Courses are available to any Canadian for a nominal fee. During the current year, the Correspondence Courses Division, in co-operation with the Provincial Institute of Trades on Dartnell Avenue, Toronto, has prepared six courses in Marine Navigation and Engineering to assist seamen in upgrading their qualifications. Several additional courses are being prepared for this series.

Enrolment

During the school year 1964-65, a total of 25,309 students enrolled in correspondence courses. Enrolment began on July 1, 1964, and closed on June 30, 1965. Except in the elementary-school grades and Grade 13, students were permitted to enrol at any time during the year and were given valid Statements of Standing as soon as they completed the courses in which they were enrolled. The age-group from which the greatest number of applications was received was that embracing persons between the ages of 20 and 25, and the level at which the greatest number of students was enrolled was Grade 13. Most applicants indicated that they were employed and were seeking to improve their employment prospects by raising their educational standing. Applications from students under the age of sixteen, who were unable to attend school because of temporary absence from Ontario, distance from school, or illness, constituted only a small part of the total number of applications received.

Enrolment was distributed as follows: 22,376 students in secondary-school academic courses; 2,227 adult students in academic courses at the elementary-school level; 208 students in trades courses; 454 elementary-school children in courses from Grade 1 to Grade 8; and 44 elementary-school children in bilingual courses from Grade 1 to Grade 8.

Departmental Business Administration Branch

One of the main responsibilities of the Branch is to prepare the annual budget estimates for the Department, in connection with which complex and detailed studies and reports on present and planned program costs are carried out. Related to the work on these estimates is the subsequent control and recording of the payments made by the Department, as well as the preparation of the material for inclusion in the Public Accounts.

Under the Federal-Provincial Technical and Vocational Training Agreement of 1961, the Branch administers, in Ontario, the funds for vocational building projects and a number of programs and services in vocational and technical training, the cost of which is shared by the Government of Canada and the Ontario Government.

The Grants Division handles the very considerable task of calculating and distributing grants to the boards of all elementary and secondary schools in the Province, to public libraries, grants to cover the cost of education of non-resident pupils and grants for the education of retarded children.

Within the reorganized departmental scheme, the Branch is now responsible for the Administrative Services Division which acts as the communications link between the Department and its outside units and personnel, school boards and other interested organizations.

School Business Administration Branch

After the creation of the School Business Administration Branch within the revised departmental structure, it began a gradual process of assuming responsibility for such matters as research into school planning, designing facilities for schools, and procedures for determining the extent of provincial financial assistance for school building projects. Development of the operations of a fast-growing computer and data-processing centre has become one of its chief functions. The Branch has also launched preparations to take over progressively administrative services and leadership in fields such as transportation agreements and school boundaries.

EDUCATION DATA CENTRE

On the strength of careful study by the Advisory Committee on Electronic Data-Processing and its recommendations, the Education Data Centre was established in 1965 with new equipment and well qualified staff. In the preparatory stage, visits were made to data-processing installations specializing in educational problems in the United States. A survey was conducted of the data-processing needs of the Department and of the Ontario Teachers' Superannuation Commission.

During the second half of the year, after the Treasury Data Centre had been transferred to new quarters and provided with a new computer, the Education Data Centre moved into the accommodations thus vacated and took over the Treasury's former computer.

Besides continuing the work of the former Statistical Services Division, the Centre assumed responsibility for data-processing services to the Ontario Teachers' Superannuation Commission. Recruitment of a staff of systems analysts, programmers and computer operators was successfully carried out under highly competitive conditions. The Centre began to take on many of the service functions formerly discharged by the Institute for Studies in Education. Members of the newly recruited staff were assigned to make systems studies, working in co-operation with the directors and staff of other branches, in order to ensure that data-processing is extended to all appropriate areas of the Department's operations.

DIVISION OF SCHOOL PLANNING AND BUILDING RESEARCH

Formed in June, 1964, the Division of School Planning and Building Research was in full operation by the following November. Its function is to develop a program of research and investigation into all aspects of the construction of school buildings and their equipment. In its first complete year of activity, the Division organized four design workshops at Sudbury, the Lakehead, Windsor and Kingston. All the meetings attracted large attendances and aroused great interest which was reflected in extensive press coverage.

Publications

By the end of 1965 two publications written by the staff of the Division had appeared: *Physical Education Facilities for Secondary Schools* and *Guidance Centres for Secondary Schools*. A number of papers, reports and articles were further prepared for educational and professional magazines. These dealt with the forecasting of trends in school planning and building or with such topics as school design and component construction.

Minister's Committee on School Planning

This committee was set up in December, 1964, to keep the Department informed on all factors which affect school design under rapidly changing conditions. These factors include the relationship of design to curriculum, to experimentation in the use of staff and the grouping of students, to the application of modern technical teaching aids, and to quality of construction, all of which need to be considered in a framework of economical financing.

An important practical outcome of the committee's work during the year was the initiation by the Metropolitan Toronto School Board of a research project on Component School Construction. This project holds great promise for more rationalized design and construction of school facilities in the future.

Consultation

Elementary- and secondary-school boards, officials and architects across the Province consulted the Division on a broad range of subjects, including the planning of actual schools and area planning for growth in school systems.

The Division's consultative facilities were also made available during the year to Teachers' Colleges, Ontario Colleges of Education, Institutes of Technology and Vocational Centres.

External Inquiries

Inquiries on the Division's activities were received from all the Canadian provinces and from Czechoslovakia, Guatemala, Mexico, the United Kingdom and West Germany.

SCHOOL PLANT APPROVALS

In the new departmental setting, the School Plant Approvals unit continued to carry out the functions of the former Technical Adviser's office. In broad outline, these are concerned with scrutiny of all school building projects on behalf of the Department, and the Government of Canada, when necessary. The review process embraces each grant-aided school building project in the Province from the original submission by a local school board to construction, during which, and after the completion of which, spot checks are made by officials of the School Plant Approvals office.

At each of the intervening stages—such as the passing of sketch plans, production of working drawings and specifications, and tendering of contracts—the approval of the Department is required. In the case of vocational facilities, approval from the Government of Canada is mandatory. A key function of the School Plant Approvals unit is to make the analysis of facilities, construction estimates and final costs upon which the legislative and vocational grants to be made to the board in question are based.

Building Program

During the year, elementary-school accommodation was increased by 84,280 pupil places in 480 new buildings and additions at an estimated cost of \$84,497,000.

In the 20-year period from 1946 to 1965 inclusive, 1,028,630 additional pupil places have been provided in elementary schools at an estimated cost of \$778,299,000.

In the same period, 12 new secondary-school buildings and 57 additions to existing secondary schools were completed. These contained 16,972 new places for pupils enrolled in both the arts and sciences programs and vocational courses. These new buildings were constructed at an estimated cost of \$59,581,000.

From 1946 to 1965 inclusive, 334,712 additional pupil places have been provided in secondary schools at an estimated cost of \$635,906,000.

Information Branch

The Information Branch was established in August, 1964. In its first 18 months of operations, the Branch has developed a firm organization and procedures for discharging its allotted function, which is to provide two-way channels of communication between the general public, the teaching profession, boards of education and trustees on the one hand and the Department of Education on the other.

Intense public interest in education and in the work of the Department has shown itself not only in a steadily increasing volume of business during the period but also in widespread and continuing press reaction and television and radio coverage across the Province.

The activities of the Branch fall naturally into four groupings.

Exhibitions

One important means of bringing problems and progress in education to the notice of the public and professionals alike is through carefully designed exhibits. During the year the Department took part in exhibitions in Ottawa, Toronto and London.

At the Central Canada Exhibition, which ran in Ottawa from August 20 to 27, emphasis was placed on courses available at the Institutes of Technology and Teachers' Colleges.

Toronto was the site of three exhibitions. The exhibit of the Canadian Education Showplace, held on February 5 and 6, focused on the reorganization of the Department. A panel of specialists supplied answers to public inquiries. Changes in the structure of the Department were also the main theme of the booth exhibit at the Convention of the Ontario Education Association from April 19 to 21.

The display at the Canadian National Exhibition centred on current trends in education at the elementary, secondary and post-secondary levels. Questions on a great variety of topics were answered daily by a roster of officials during the entire run of the exhibition from August 20 to September 6. For the first time in the Department's history, a non-competitive Student Talent Festival took place in the theatre of the Ontario Government building in conjunction with the exhibit. A total of 258 talented students from 35 elementary and 31 secondary schools gave public performances of vocal and instrumental music, dancing and puppetry.

Local opportunities in technical education and teacher education formed the subject of the exhibit at the Western Fair which was staged between September 10 and 18 in London.

Press Services

Up-to-the-minute information concerning the work of the Department was issued in 95 press releases which were circulated to weekly and daily newspapers, the members of the Ontario Legislative Press Gallery, radio and television stations, educational publications and a variety of other addressees across the Province. Each press release served an average of 280 outlets.

Photographs produced by a staff or local photographer were distributed for press and other needs.

Public Inquiries

The Branch regularly receives a large volume of inquiries by telephone and letter on a wide range of subjects, some directly connected with the work of the Department, others concerning education in the broadest sense. Replies to these inquiries often involve a good deal of investigation on the part of branch officers. Requests for information submitted by teachers and others working on degree courses or on graduate studies likewise call for research by members of the staff. Other branches of the Department are served with press clippings from across Ontario to keep them informed on public discussion of educational topics. Organization of informative tours for visitors, both Canadian and foreign, is undertaken by the Branch.

During the year, staff writers carried out a large number of assignments which included articles, messages and other major productions.

Publications

An early task of the Branch was to make a start on a process of reorganizing the many publications produced in various parts of the Department with a view to incorporating them into a codified design system. Sixty publications were so processed during the year. All publications of the Department now carry, or will carry, a distinguishing symbol, the new Department "logo".

Ontario Education News, a newsletter with a circulation of about 2,600 is now issued monthly within the Department to brief the staff on departmental activities, personalities and projects. It carries feature articles and photographs dealing with particular aspects of education.

Provincial Library Service Branch

Public Library Development

1965 saw the completion of the first major survey in Ontario of public library service and organization. The report on the survey, which was made possible by funds provided by the Department of Education, is expected early in 1966.

Regional library development proceeded rapidly in 1965: three new regional library co-operatives were formed and one existing co-operative was enlarged. The boards for the Eastern Ontario, South Central and Central Ontario Regional Library Co-operatives held their first meetings in 1965, and each adopted a regional program with the aim of raising standards of library service among the member library boards. The North Central Regional Library Co-operative was enlarged by the addition of the District of Algoma. There are now twelve regional boards in Ontario: only two regions remain to be organized.

Several new library buildings were constructed in 1965, the largest being the main library in the City of Guelph, which was opened by the Prime Minister, the Honourable John P. Robarts, in November.

Use of Libraries

Circulation of books and other items reached the figure of 44,000,000. Public library expenditure for the Province was \$15,852,513 or \$2.50 per capita.

Librarianship

A large enrolment was reported for the course leading to the Bachelor of Library Science degree, with the result that 100 students graduated from the School of Library Science of the University of Toronto. Library courses were also made available by the University of Ottawa and by the Department of Education.

Provincial Service

The legislative vote for assistance grants to public libraries was increased to \$3,250,000. The Provincial Library Service Branch increased its service to the Department of Education and to teachers. Development of the three regional boards and two county public library boards was assisted by the advisory service of the Branch.

Youth Branch

General Information

The Youth Branch assists communities in identifying factors which influence the development of youth, such as population movements, employment, education, social adjustment and recreation. With the aid of information thus obtained, programs and policies are developed by the community as a whole to help young people meet the opportunities and challenges of contemporary society.

The Branch employs a Research Officer in Education and will engage Research Officers in Economics and Sociology.

In addition to advising communities in their local investigations, the officers gather and systematize data concerning youth in society which are made available for use by interested organizations. Such material includes drop-out studies, employment trends and special youth projects in Canada and abroad. The Branch also undertakes specific investigation, the findings of which will be useful to youth-serving agencies.

Activities

To date, three studies have been completed:

- (1) Continuing Education in Ontario: Opportunities by Sources.
- (2) Population, Labour and Educational Statistics for Ontario.
- (3) Preparation of a Bibliography and Evaluation of Films on Sex Education.

At the request of the Social Planning Council of Metropolitan Toronto, acting in consultation with the Youth Branch, the Department of Education has recently allocated funds for research on the subject of unreached youth in Metropolitan Toronto.

The staff of the Youth Branch have participated in many conferences and acted as consultants for various organizations, such as: Frontier College, groups operating under the Agricultural Rehabilitation and Development Act, Girl Guides of Canada, Boy Scouts of Canada, Canadian Camping Association, Ontario Recreation Association, Indian-Eskimo Association, Federal-Provincial Co-ordinating Committee for Indians, Big Brother Movement, Sex Information and Education Council of Canada. Members of the staff have also taken courses for their professional advancement.

Future

Requests have been received from Ontario communities for assistance in identifying the social, educational and employment problems of young people in their areas. The Youth Branch has prepared an instrument for such studies and recommends that the requisite material be collected by a community study team with representation from the following interests: youth, education (particularly guidance teachers), industry, labour, municipal councils, National Employment Service, police, probation, recreation, religion and welfare. The interpretation of the findings of the study team will be applied with the object of expanding and extending employment, educational and recreational programs.

In Memoriam

F. STANLEY RIVERS, B.A., B.PAED., LL.D.

Deputy Minister of Education, 1956-1961

Chief Director of Education, 1961-1965

Death on February 26, 1965, brought to an end the distinguished career of a man who had devoted long and highly useful years to the service of education in Ontario. Dr. Floyd Stanley Rivers was born at Teeswater, Ontario and attended a rural school in Huron County. After high school education in Owen Sound he moved to the University of Toronto, from which he graduated with first class honours in Arts and the Prince of Wales Gold Medal for general proficiency. He then qualified at the Ontario College of Education for teaching in both elementary and secondary schools, and later took post-graduate work in education at the University of Toronto and at Edinburgh University in Scotland. Beginning his teaching career at Owen Sound Collegiate and Vocational Institute, he then became a public school principal in the same city, subsequently joining the staff of the North Bay Normal School in 1931. He next served the Department of Education as an Inspector of Public Schools in the Kirkland Lake area, and then as principal of the Ottawa Normal School. Appointed in 1944 to the

staff at the Department's head office, he held in succession the posts of Assistant Superintendent of Elementary Education, Inspector of Professional Training, Superintendent of Teacher Education, and Deputy Minister of Education. His administrative career was interrupted between 1947 and 1950 by a period of service as assessor to the Royal Commission on Education which produced in 1950 the document that became known as the Hope Report. The contribution he made to education in the Province in these responsible positions was recognized by Assumption University which conferred upon him the honorary degree of Doctor of Laws in May, 1959. His appointment as Chief Director of Education dated from April 1, 1961. Dr. Rivers's interest in schools was not limited to Ontario and he took an active part for many years in the activities of The Canadian Education Association, of which he became President in September, 1963. From time to time he ably represented Canada at a number of important educational conferences at Paris, Geneva, Ottawa and Tokyo. A man of outstanding ability and great personal charm, the late Dr. Rivers will long be remembered with great affection by his many friends and colleagues in education.

J. A. BANNISTER, B.A., D.PAED., who retired on August 31, 1943, from the position of Principal of the Peterborough Normal School, died on November 11, 1965. A tribute to his service was given in the 1943 Report of the Minister.

JOSEPH BEAULIEU, B.A., MUS.BAC., who had retired on May 31, 1965 from the position of Assistant Director of Music for Ontario, died on October 1, 1965 in North Bay. Mr. Beaulieu was born on May 21, 1895, in Mattawa where he received his early education. After graduating at the University of Ottawa, he took a teaching post at an elementary school in Glen Robertson, Ontario and later taught at the University of Ottawa High School for 18 years. In August, 1942, he left Ottawa to take up an appointment as Assistant Director of Music for the Province with residence at North Bay. In the course of his activities there he founded an Opera Society and composed the music for more than 200 songs, for many of which he wrote the lyrics. Six of these songs now exist on long-playing records. Known today under the title "*Chantons à l'école*", these songs are officially approved by the Department as part of the music course in the bilingual schools of Ontario, a course for which Mr. Beaulieu was largely responsible. Mr. Beaulieu was a man of great musical enthusiasms who enjoyed the affection of his colleagues and of the teachers and principals with whom he was associated.

Miss CHERRY GRANT, B.A., who retired from the position of Librarian at the Ottawa Teachers' College on August 31, 1961, died in Ottawa on November 2, 1965. A tribute to her service was given in the 1961 Report of the Minister.

THOMAS O. M. JACKSON, Executive Assistant in the Grants Division of the Department, died on December 29, 1965, after suffering a seizure while on holiday in September. He was born on April 1, 1907 at Clinton, Ontario, where he attended public and high school and afterwards worked for five years in the Royal Bank. Mr. Jackson joined the staff of the Department on February 25, 1941. Shortly thereafter, he was placed in charge of accounting for the Dominion-Provincial War Emergency Training Scheme for the Royal Canadian Air Force, a function which he carried out until his enlistment

in the R.C.A.F. in January 1942. He was discharged from the R.C.A.F. on August 30, 1946, with the rank of flight-lieutenant. On September 16 in that year he resumed service with the Ontario Department of Education, with which he remained until his death. Mr. Jackson earned great respect for his sympathetic approach to the problems of school boards across the Province and, by his pleasant, cheerful manner, won himself a host of friends among school administrators and his departmental colleagues.

Miss AGNES JOHNSTON, who retired on August 31, 1946 from the position of Librarian at the Stratford Normal School, died on November 2, 1965. A tribute to her service was given in the 1946 Report of the Minister.

HERMAN H. LANGFORD, B.A., who was serving as Inspector of Public Schools in the Inspectorate of Lennox No. 1, Addington No. 2 and Hastings No. 4, died suddenly at his home in Napanee on April 29, 1965. Born in Western Ontario, Mr. Langford was a graduate of the Stratford Normal School. From 1922 until 1929 he taught in various public schools, after which he became a bush pilot in the Province of Quebec. In 1932 Mr. Langford entered Queen's University where he obtained the degree of Bachelor of Arts with honours. He then served as Vice-Principal and Principal of the Victoria Public School, Kingston, until 1938 when he was appointed Public School Inspector. During the war Mr. Langford served as a wing-commander in the Royal Canadian Air Force, returning in 1945 to his position as Public School Inspector at Napanee. Mr. Langford's contribution to education was marked by sincerity and integrity, and he will be remembered with warm affection by teachers to whom he gave leadership, as well as by his colleagues.

A. B. LUCAS, B.A., B.PAED., LL.D., who retired from the position of Director of Education for the London Board of Education on June 30, 1962, died on January 3, 1965. A tribute to his service was included in the 1962 Report of the Minister.

HELEN B. PAUL, B.A., who retired on August 31, 1958 from the position of Inspector of Public Schools for Lanark County, died on January 5, 1965, at Brockville. A tribute to Mrs. Paul's service was given in the 1958 Report of the Minister.

J. BLAKE SPEERS, B.A., M.ED., Assistant Superintendent, Collegiate Institute Board of Ottawa, died on November 11, 1965. Mr. Speers was born in Huntsville, Ontario, and graduated in arts from McMaster University in 1930 and in education from the University of Ottawa in 1961. He began his teaching career at the High School of Commerce where he remained as a teacher until 1949. He served as Principal of that school from 1949 to 1958 and later transferred to open the new Ridgemont High School as its first Principal. He remained at Ridgemont High School until July, 1964, when he took over the responsibility of being Assistant Superintendent of Secondary Schools. Mr. Speers was a Past President of the Ontario Headmasters' Association and a member of the Board of Regents of the Ontario Secondary School Teachers' Federation. Besides being responsible for the standards of commercial education in Ottawa, he had a great deal to do with the organizing of an extensive summer school program and pioneered in the field of Saturday morning tutorial classes for students wishing to improve their grades. Mr. Speers was active in his community and was the founding President of the Ottawa South Kiwanis Club.

Retirements on Superannuation

HOWARD R. BEATTIE, B.A.

CORBIN A. BROWN, M.A., D.PAED.

HOWARD R. BEATTIE, B.A., retired on December 21, 1965, from the position of Director, Special Schools and Services Branch. Mr. Beattie is a native of Middlesex County, a graduate of London Normal School and of the University of Western Ontario, and has done post-graduate work at the Harvard Graduate School of Education. For 17 years he was a teacher or principal in Ontario schools at Lobo, Merlin, Ayr and London. As Director of Vocational Guidance in London, Ontario, he organized in 1941 the first city-wide system of guidance in Ontario. Later, as Director of Career Planning in Hamilton, Ontario, he set up the initial organization for guidance services in the schools of that city. On July 1, 1944, Mr. Beattie was appointed the first Director of Guidance for the Department of Education of the Province of Ontario. In 1949-50 he was President of the Council of Guidance and Personnel Associations, the predeces-

sor of the American Guidance and Personnel Association. In 1953 he was appointed Assistant Superintendent for both Elementary and Secondary Education, in charge of School Attendance, Guidance Services, Special Education, and Statistics. On November 1, 1956, Mr. Beattie became the first Superintendent of Special Services for the Department of Education and in January, 1965, he was appointed Director, Special Schools and Services Branch. Prominent among his special interests were the schools for retarded children, the modernization of statistical services within the Department, and the establishment of the Ontario School for the Deaf at Milton. In each of these areas he made a distinctive contribution. His humanity, good judgment and freshness of approach as an executive won him the respect of educators across the Province while his sense of fair play and sincerity gained him the warm friendship of his associates.

CORBIN A. BROWN, M.A., D.PAED., retired on June 1, 1965, from the position of Registrar of the Department of Education after 20 years' service as head of the Registrar's Branch. Dr. Brown obtained his elementary education in a one-room rural school in Middlesex County and his secondary education at London Collegiate Institute. Following his graduation from the London Normal School in 1919, he taught in a rural school in Kent County and in public schools in London where he was appointed Principal of Alexandra School and later of Ryerson School. In January, 1929, Dr. Brown became Inspector-Administrator for the Chatham Board of Education, and in 1933, Inspector-Administrator of Public Schools for St. Catharines. In 1940 he joined the Department of Education to assist the Registrar and to act as Secretary of the Teachers' Superannuation Commission. On July 1, 1945, Dr. Brown was appointed Registrar of the Department of Education, and in November of the same year was designated by the Minister as Chairman of the Teachers' Superannuation Commission; he remained in both of these positions until his retirement on June 1, 1965. Dr. Brown was awarded the degree of Bachelor of Arts by Queen's University in 1924, the degree of Master of Arts by Columbia University in 1927, and the degrees of Bachelor of Pedagogy and Doctor of Pedagogy by the University of Toronto in 1932 and 1948 respectively. In his capacities as Registrar, Secretary of the University Matriculation Board and Chairman of the Board of Examiners, Dr. Brown was responsible in large measure for the Grade 13 departmental examinations. He will be remembered for his part in maintaining high standards and introducing new techniques in these examinations, and for his active participation in the studies directed at improving the Grade 13 program. Dr. Brown's term of office saw a tremendous expansion in the Registrar's duties and responsibilities, particularly in the fields of teacher-certification, standards and diplomas, and examinations. Dr. Brown, in his educational career, has demonstrated the qualities of a sound educator and administrator—intelligence, understanding, tolerance and foresight. The Department of Education has valued highly his contribution to education. Since his retirement, his election as a Fellow of the Ontario Teachers' Federation and as an Honorary Life Member of the Canadian Education Association indicates the esteem in which he is held throughout Canada.

J. K. EVANS, B.A., B.PAED., retired on December 31, 1965, as Inspector of Schools for the Inspectorate of Wentworth No. 1 after more than 45 years devoted to the cause of education in Ontario. Mr. Evans was born in Petrolia, Lambton County, and attended elementary and secondary schools in that area. In 1919 he enrolled at the

London Normal School, and, after graduation, spent the next 19 years as teacher, principal and supervising principal for schools in Wyoming, Oil Springs and Petrolia. During this period he earned a Bachelor of Arts degree from the University of Western Ontario. In 1938 he was named Inspector of Public Schools in Collingwood where he remained until the fall of 1942. He then taught as Master, successively, at the Ottawa and Hamilton Teachers' Colleges. In 1945, having obtained the degree of Bachelor of Pedagogy from the University of Toronto, he resumed the duties of Inspector of Public Schools, this time in Wentworth County, a position which he held until his retirement. Mr. Evans will be remembered by all with whom he came in contact for his quiet and kindly manner and for the many educational advantages that he brought to the areas in which he worked.

FLORENCE A. FITZGERALD, R.N., retired on November 18, 1965, after 31 years of devoted service as nurse in charge of the school hospital at the Ontario School for the Deaf, Belleville. Born in Simcoe County, Miss Fitzgerald received her elementary education in Foxmeade, her secondary education in Orillia, and her nursing training at Belleville General Hospital. She continued on staff at that hospital as a nurse and later as a supervisor. She served in the Victorian Order of Nurses for two years and also as a private nurse before being appointed in 1934 to the staff of the Ontario School for the Deaf as resident nurse. Here, under the direction of the school physician, she faithfully cared for the varying health needs of hundreds of deaf children. Because the hospital was her home as much as her place of work, Miss Fitzgerald's kindly interest in the well-being of all her charges not only made the hospital a happy place but permeated the atmosphere of the whole school.

ALAN J. HANCHARD, Assistant Superintendent of the Business Administration Branch of the Department, retired on August 5, 1965. He was born in London, England, where he received his early education, and was brought to Canada in 1910. After a lengthy career in the trust and estate business with the National Trust and Toronto General Trust Corporation, he joined in December, 1944, what was then called the Accounts Branch of the Department as Assistant to the Chief Accountant. From late 1948 until July 1957 he served as Executive Officer in the Community Programs Branch and, in that capacity, had a great deal to do with the organization and development of the Branch. In 1957 he was recalled to the Chief Accountant's staff and was subsequently appointed Assistant Superintendent, Business Administration Branch, in which position his particular responsibility was estimating and budgeting for the Department. His vigour, ability and diligence in the discharge of his duties won the respect of all his associates. Ill health during his last ten months of employment led Mr. Hanchard to retire. The good wishes of his many friends follow him to his new home in Vancouver.

L. B. HYDE, B.A., retired from the position of Vice-Principal of the London Teachers' College on December 31, 1965. Born in Huron County, he received his elementary education in Stratford and, upon graduating from Seaforth Collegiate Institute, attended the Stratford Normal School. After serving as principal of elementary schools in Perth County, Ridgeway and the City of Welland, he was appointed Elementary School Inspector in 1939. His interest in the establishment of Township School Areas led to service as an inspector in the Counties of Lanark, Welland, and Oxford. In 1950

he was appointed to the staff of the London Normal School where he continued to serve until his retirement. During his long and distinguished career in education, Mr. Hyde has given wise counsel to many school boards, students and teachers. His good judgment and strong leadership have left a lasting imprint on the minds of those with whom he has worked.

HELEN M. KEELER retired on August 31, 1965, from her position as teacher at the Ontario School for the Deaf, Belleville, after serving the deaf children of this Province for 34 years. Miss Keeler received her elementary and secondary education in Trenton, Ontario, and after graduating from Toronto Normal School, returned to Trenton to teach in the public schools. A kindergarten-primary specialist, she developed particular interest and skill in children's dancing, pageantry and related costuming. She was attracted in 1931 to the Ontario School for the Deaf where she inaugurated the teaching of dancing to deaf children. In association with Mr. S. Alec Gordon, who was given responsibility for the teaching of rhythm shortly afterwards, she developed a comprehensive program which included folk-dancing, tap-dancing and ballet for all grades. When the school moved from its premises during World War II to make way for a Commonwealth Air Training School, Miss Keeler began regular classroom teaching with young children and continued after the war as a preparatory class teacher until her retirement. Miss Keeler's work at the School is recalled with gratitude by students and staff.

D. MACRAE, B.A., B.PAED., Master at Ottawa Teachers' College, retired on August 31, 1965. Mr. MacRae was born in Stormont County and received his early education in Avonmore Public School and Cornwall Collegiate Institute. After graduating from the Ottawa Normal School, he taught elementary school for six years, then attended the Ontario Training College for Technical Teachers in Hamilton where he was granted a Specialist Certificate in Manual Training. In 1932 he was appointed to the staff of the Ottawa Normal School where he continued to serve until his retirement. While a practising teacher he continued his studies, receiving the degree of Bachelor of Arts from St. Patrick's College in Ottawa and that of Bachelor of Pedagogy from the University of Toronto. During his 33 years at the Ottawa Teachers' College, he served as Instructor, Master and Vice-Principal. His instructional skill, enthusiasm for teaching, administrative ability, and devotion to duty will long be appreciated by his former students and associates.

RHENA I. McILROY, B.A., B.ED., A.T.C.M., Master at the Hamilton Teachers' College, retired on June 30, 1965. Born in Hamilton, Ontario, she received her elementary and secondary education in that city. Upon graduating from the Hamilton Normal School she taught in the City of Hamilton and continued her musical studies. After completing courses at New York University and the Toronto Conservatory of Music, she was appointed Music Supervisor for the Hamilton school system, a post in which she served for 17 years. Her work as conductor of the Orpheus Girls' Choir of Hamilton, which she founded, became well known through CBC broadcasts. Miss McIlroy taught music at the London and Hamilton Normal Schools for ten years before she assumed full-time duties at the Hamilton Teachers' College in 1955. While teaching, she continued her studies and obtained a degree of Bachelor of Arts from McMaster University and that of Bachelor of Education from the University of Toronto. An

outstanding teacher of music, Miss McIlroy was an inspiration to thousands of young people. Her fine personal qualities and her dedication to choral music will long endear her to her former students and associates.

BASIL M. MCLEAN, B.A.SC., B.PAED., P.ENG., retired on April 1, 1965, from the position of Technical Adviser. Mr. McLean graduated in engineering from the University of Toronto in 1921 and spent the next 26 years teaching in elementary and secondary schools under the jurisdiction of the Toronto Board of Education. Before accepting, in 1947, his first post with the Department of Education as Assistant Technical Adviser, he was Director of Shops and Drafting, and Night School Principal, at the Danforth Technical School, Toronto. His years of service as Assistant and then as Technical Adviser in the Department were years of phenomenal expansion in school building across the Province. His interest and background of experience meant much to the school authorities whom he counselled, just as his friendship meant much to the staff members of the Department with whom he worked.

THOMAS S. MELADY, M.A., Inspector of Separate Schools for Toronto Division No. 1, retired on October 10, 1965, after almost 44 years of service as an Inspector. Mr. Melady was born in the township of Hibbert where he attended a rural school. He graduated from Seaforth Collegiate Institute in 1913, and studied at the Faculty of Education in Toronto. He taught in elementary schools in Northern Ontario, and also in the Province of Saskatchewan. His experience in high-school teaching was gained at St. Michael's College School in Toronto. After service in the army during World War I, he attended the University of Toronto where he obtained a Bachelor of Arts degree. He was appointed an Inspector of Separate Schools, with residence in Stratford, on December 22, 1921. He later served as Inspector in the Windsor Separate Schools, and was transferred to the Toronto Separate School Inspectorate in September, 1940. Having acquired a Master of Arts degree at the University of Western Ontario, he took further courses in educational administration at Columbia University. During his years of service, Mr. Melady assisted in adapting the principles of the rotary system to the smaller urban school and displayed a special interest in the development of the senior elementary school for Grades 7 and 8 in the Toronto Metropolitan Separate Schools. Mr. Melady's service won appreciation from pupils, teachers and trustees alike.

G. J. PATTERSON, B.A., B.PAED., retired on August 31, 1965, from the position of Inspector of Schools for the Hamilton Board of Education. Mr. Patterson was born in Rochester, New York, but attended Hamilton public schools and Hamilton Collegiate Institute and Normal School. He was appointed to the staff of the Hamilton public schools in 1925, reaching the position of Principal of Brantdale School in 1936. During the next 15 years he served as principal in several other Hamilton public schools. He graduated from McMaster University with a Bachelor of Arts degree in 1935 and was awarded his Bachelor of Pedagogy by the University of Toronto in 1942. In 1953 Mr. Patterson was promoted to the position of Inspector of Schools to the Hamilton Board of Education. Mr. Patterson has interested himself extensively in many aspects of education, but particularly in the field of special education. His educational wisdom was a source of strength to the Hamilton Public School system and his service will be remembered with appreciation.

STUART H. PORTER retired on October 30, 1965 from his post as Head of the Watchmaking and Jewellery Arts Department of the Provincial Institute of Trades in Toronto. Mr. Porter was born on June 12, 1899, in Orangeville where he received his public and high school education and subsequently became an apprentice watchmaker. After joining the 67th University Battery in 1916, he served in France and was seriously gassed. At the end of World War I, he returned to Orangeville to complete his apprenticeship, then moved to Dundalk where he married a former high school teacher from Orangeville. Mr. Porter went, in 1942, to Toronto to work on special instruments in the aircraft industry. In 1945 he joined the staff of the Training and Re-establishment Institute, which afterwards became the Ryerson Institute of Technology. Mr. Porter later moved with the watchmaking course from Ryerson to the Provincial Institute of Trades, in which he eventually became head of the department concerned. Mr. Porter will long be remembered for his kindly and continuing interest in his students.

WINNIFRED R. PRENDERGAST retired on September 14, 1965, from her position as Instructor in Physical Education at the London Teachers' College. Born in Toronto, Ontario, she received her elementary and secondary education at the Toronto Normal Model School and Loretto Abbey High School respectively. Upon graduating from the Margaret Eaton School of Physical Education in Toronto, Miss Prendergast embarked on a long and varied career in her chosen field. Her teaching experience includes work at University of St. Louis, the H. B. Beal Technical and Commercial High School in London, McMaster University summer sessions, and 30 years of service at the London Teachers' College. She was the first Director of the Department of Education's Counsellor Training Camp, a charter member of the Physical Education Council of Ontario, the recipient of a Centennial Award presented by the Physical Education Branch of the Ontario Education Association, and the author of a book on physical education. A skilful teacher and a woman of boundless energy, Miss Prendergast gave outstanding leadership to the students in her classes and to the many teachers who sought her advice and assistance.

J. LAWRENCE RUNNALLS, B.A., retired on August 31, 1965, from the position of Inspector of Schools for Lincoln No. 2. He was born on Barrie Island and received his early education at Barrie Island Public School and Gore Bay High School. He then taught school for three years before attending North Bay Normal School in 1924-25. During the next three years he taught in what is now West Ferris Township School Area. His next 16 years of teaching were spent in the City of North Bay. In 1938 he obtained a Bachelor of Arts degree from Queen's University. The year 1944 brought an appointment as Public School Inspector in Haileybury where he remained until 1954. In that year he was transferred to St. Catharines as Inspector of Lincoln No. 2. Mr. Runnalls gave outstanding leadership to service and fraternal organizations in the Ontario centres in which he lived and worked. His quiet manner, his steady interest in all that is best in education, and his unfailing sincerity will be remembered by his colleagues.

WILLIAM L. STRICKER retired on August 31, 1965, from his position as Instructor in Industrial Arts at the Toronto Teachers' College. Born in Dawn Township, Lambton County, he received his elementary education in a rural school. Upon graduating

from Beamsville High School, he attended the Hamilton Normal School and commenced his teaching career in S.S. No. 13 North Grimsby. Prior to his appointment, on a part-time basis, to the staff of Hamilton Normal School in 1933, Mr. Stricker had qualified as a Manual Training Specialist and had taught manual training in the Hamilton public schools for a period of three years. From 1933 to 1937, while instructing in manual training at the Hamilton Normal School in the afternoons, he served during the mornings as Vice-Principal of the Strathcona Public School in Hamilton. For the next 14 years he taught at the Normal Schools in Peterborough, Hamilton, and Toronto, commuting from school to school each week. In 1951 he assumed full-time duty at the Toronto Normal School where he served until his retirement. A skilful teacher and an expert craftsman, Mr. Stricker has made a fine contribution to teacher education in Ontario. He will be remembered with appreciation by the many teachers and students to whom he gave kindly guidance.

J. W. VANLOON, B.A., B.PAED., Superintendent of Public Schools to the Hamilton Board of Education, retired on August 31, 1965. Born in Tillsonburg, he received his early education there and later attended Hamilton Normal School in 1924-25. The following September he was appointed to the staff of Memorial Public School, Hamilton. After seven years of teaching, Mr. VanLoon was promoted to be Principal of Ryerson School and five years later was transferred to the principalship of Lloyd George School. On the strength of his recognized ability, Mr. VanLoon was recommended for the appointment of inspector in 1939. During his years as teacher and principal, he obtained a Bachelor of Arts degree from McMaster University and a Bachelor of Pedagogy from the University of Toronto. In 1958 Mr. VanLoon was appointed Superintendent of Public Schools, a post which he held with distinction until his retirement. Mr. VanLoon showed keen interest in active participation in his church, in fraternal societies and in service clubs. After 40 years of service with the Hamilton Board of Education, he can look back with pride on a successful career as a teacher, principal, inspector and superintendent.

JOHN C. WILKER, B.A., B.PAED., retired on August 31, 1965, from the position of Assistant Superintendent, Supervision Division. Mr. Wilker was born near Tavistock in Oxford County and attended a rural school. He received his secondary education in Tavistock and Stratford and graduated from Stratford Normal School. After obtaining a degree in Mathematics and Physics from the University of Western Ontario, he added to his qualifications a specialist certificate in Mathematics and Physics from the Ontario College of Education and a Bachelor of Pedagogy degree from the University of Toronto. He taught in rural schools in Waterloo County and in the Hespeler Public School. His work in the Ottawa public schools included ten years as principal. Appointed Inspector of Public Schools in 1944, he served in Prescott and Russell, and in Carleton and in Lincoln Counties. He was a member of the staff of the Ottawa Normal School in 1950-51, and was responsible for organizing and operating the Departmental Elementary-School Principals' Refresher Course during the period 1947 to 1951. In 1957 he was appointed Assistant Superintendent of Elementary Education, serving in that Branch and subsequently in the Supervision Division until his retirement. Because Mr. Wilker's work was invariably characterized by quiet sincerity and sound judgment, he made a most significant contribution to education in Ontario.

SERVICE RECORD—

Personnel Employed by Province of Ontario

DIED IN SERVICE

- T. O. M. JACKSON.....Executive Officer 2, Executive Assistant to Chief,
Grants Office, December 29, 1965.
- H. H. LANGFORD.....Education Officer 2, School Inspector, Supervision
Division, April 29, 1965.
- DR. F. S. RIVERS.....Chief Director of Education, February 26, 1965.

RETIREMENTS ON SUPERANNUATION

- H. R. BEATTIE.....Education Officer 6, Director, Special Schools
and Services Branch, December 21, 1965.
- J. BEAULIEU.....Education Officer 2, Curriculum Division,
May 20, 1965.
- DR. C. A. BROWN.....Education Officer 5, Registrar, May 31, 1965.
- J. K. EVANS.....Inspector of Schools, Supervision Division,
December 31, 1965.
- A. J. HANCHARD.....Assistant Superintendent, Business
Administration, Departmental Business
Administration Branch, August 5, 1965.
- L. B. HYDE.....Vice-Principal, London Teachers' College,
Teacher Education Branch, December 31, 1965.
- MISS R. I. MCLROY.....Master, Hamilton Teachers' College, Teacher
Education Branch, June 30, 1965.
- B. M. MCLEAN.....Technical Adviser, April 4, 1965.
- D. MACRAE.....Master, Ottawa Teachers' College, Teacher
Education Branch, August 31, 1965.
- T. S. MELADY.....Education Officer 2, Inspector of Schools,
Supervision Division, October 9, 1965.
- S. PORTER.....Head of Watchmaking and Jewellery Arts,
Provincial Institute of Trades, Toronto,
Technological and Trades Training Branch,
October 31, 1965.
- MISS W. R. PRENDERGAST..Instructor 2, London Teachers' College, Teacher
Education Branch, September 14, 1965.
- J. L. RUNNALLS.....Education Officer 2, Inspector of Schools,
Supervision Division, August 31, 1965.
- W. R. STRICKER.....Instructor 2, Toronto Teachers' College, Teacher
Education Branch, August 31, 1965.
- J. C. WILKER.....Education Officer 4, Assistant Superintendent,
Supervision Division, August 31, 1965.

RESIGNATIONS

- G. F. ALLISON.....Education Officer 3, Inspector of Schools,
Supervision Division, June 30, 1965.

- H. W. BEATTY.....Education Officer 2, Inspector of Schools,
Supervision Division, June 30, 1965.
- R. J. BERGIN.....Education Officer 2, Inspector of Schools,
Supervision Division, July 31, 1965.
- J. D. CADWELL.....Master, Toronto Teachers' College, Teacher
Education Branch, December 31, 1965.
- R. T. DIXON.....Master, Lakehead Teachers' College, Teacher
Education Branch, July 31, 1965.
- J. C. DOYLE.....Education Officer 2, Inspector of Schools,
Supervision Division, July 31, 1965.
- J. L. FIELD.....Master, Hamilton Teachers' College, Teacher
Education Branch, July 31, 1965.
- R. H. FIELD.....Education Officer 4, Assistant Superintendent,
Curriculum Division, December 31, 1965.
- W. G. FORSYTHE.....Education Officer 3, Inspector of Schools,
Supervision Division, July 31, 1965.
- A. W. HARRIS.....Education Officer 2, Inspector of Schools,
Supervision Division, June 30, 1965.
- B. R. HUNT.....Architectural Research Assistant, Division of
School Planning and Building Research,
June 18, 1965.
- T. R. IDE.....Education Officer 3, Inspector of Schools,
Supervision Division, July 31, 1965.
- W. E. KIESER.....Education Officer 2, Inspector of Schools,
Supervision Division, June 30, 1965.
- G. R. LAMBERT.....Education Officer 2, Inspector of Schools,
Supervision Division, June 30, 1965.
- J. LAVIN.....Education Officer 2, Inspector of Schools,
Supervision Division, July 31, 1965.

TABLE 3.5—CERTIFICATES AND DIPLOMAS, 1965

A—STATEMENT OF STANDING, CERTIFICATE OF STANDING, AND CERTIFICATE OF TRAINING, 1965*

1. STATEMENT OF STANDING

Total

(a) Secondary Schools:

Issued by the principal, upon request of pupils who have left a secondary school, and who have completed successfully Grades 9 and 10 of the Four-Year or Five-Year Program in one of the Branches:

Continuing Program.....	3,546	
Reorganized Program.....	12,334	15,880**

(b) Elementary Schools:

Issued to pupils who have completed successfully Grades 9 and 10 in an elementary school.

Grades 9 and 10 of Public Schools.....	107	
Grades 9 and 10 of Roman Catholic Separate Schools.....	6,656	6,763

2. CERTIFICATE OF STANDING

Issued to pupils who have completed successfully Grades 9 and 10 of the Two-Year Program in a secondary school.

Two-Year Program.....	1,604	1,604
-----------------------	-------	--------------

3. CERTIFICATE OF TRAINING

Issued to pupils who have completed successfully a One- or Two-Year course of study in the Occupational Program in a secondary school.

Occupational Program.....	4,688	4,688
		28,935

* Intermediate Certificates were last issued in June, 1963.

* These are the Statements of Standing from July 1, 1964 to June 30, 1965. This is the first occasion on which a full twelve month report has been made. The corresponding figure in the 1964 Report covered only the month of June, 1964.

TABLE 3.5—CERTIFICATES AND DIPLOMAS, 1965—(Continued)

B—THE SECONDARY SCHOOL GRADUATION DIPLOMA

Issued to pupils completing Grade 12 in 1965

Classes of Schools	Total number of pupils recommended	Pupils Classified by Courses								
		General				General Technical	Technical	Home Economics	Commercial	Art
		4 Options	5 Options	6 or more Options	Total					
Secondary Schools	48,899	25,706	9,632	397	35,742	51	3,888	141	8,860	217

These figures are based on the monthly reports of the Family Allowance Division of the Department of National Health and Welfare. These reports give the number of families transferring accounts into and out of each province. The data are compiled for a census year, June to May up to and including 1958-59 but for the school year thereafter. In order to show the number of children rather than families, the average for Canada—2.48 children per family—has been used as a multiplier.

**TABLE 3.72—TRANSPORTATION ASSISTANCE FOR PERSONS RESIDING IN
THE TERRITORIAL DISTRICTS 1964-1965**

The Province of Ontario provided transportation assistance to 933 students during the school year 1964-65. \$23,040.14 was paid to 615 students residing east of Sault Ste. Marie and 317 students residing west of Sault Ste. Marie. Of those assisted, 333 were in the first year, 259 in the second year, 242 in the third year, 86 in the fourth year, 9 in the fifth year and 4 in the sixth year.

The institutions attended by these students were as follows:

Queen's University.....	200	McMaster University.....	36
Western University.....	214	Ontario College of Education.....	8
University of Toronto.....	153	Osgoode Hall Law School.....	13

TABLE 6.5—PUBLICATIONS OF THE DEPARTMENT OF EDUCATION

(Dates indicate year of printing or reprinting without revision)

A. COURSES OF STUDY

Grades 1 to 10

- Programmes of Studies for Grades 1 to 6 of the Public and Separate Schools reprinted with minor revisions in 1963.
- Programme for Religious Education in the Public Schools, 1963.
- Curriculum I. 1, Intermediate Division Art, Mathematics (Grades 7-10), English (Grades 7-8) 1964.
- Curriculum I. 1(e), Intermediate Division Science (Grades 7-10) 1965.
- Curriculum I. 3 & S. 5, Guidance in the Intermediate and Senior Divisions, 1963.
- Curriculum I. 4, Reading List for the Intermediate Division (Grades 7-10) 1964.
- Curriculum I. 4A, Supplement to Intermediate Division Reading List (Grades 7-10) 1964.
- Curriculum I. 5, Physical Education, Outline of Courses for Experimental Use, (Grades 7-10), 1965.
- Curriculum I. 6, Intermediate Division Home Economics, 1965.
- Curriculum I. 7 & I. 9, Geography, History and Government, Social Studies, Intermediate Division, 1964.
- Curriculum P. & J. 4, Primary and Junior Divisions Reading List, 1963.
- Curriculum P. & J. 4(b), Primary and Junior Divisions Reading List, 1963.
- Curriculum P. 5, Physical Education, Primary Division, 1965.
- Curriculum J. 5, Physical Education, Junior Division, 1965.
- Curriculum I. 12A, Intermediate Division Mathematics, (Grade 7) 1963.
- Curriculum I. 12B, Intermediate Division Mathematics, (Grade 8) 1965.
- Curriculum 46, Courses of Study and Examinations in Schools attended by French-Speaking Pupils, 1964.
- Circular 14, Text-books Approved or Recommended for use in Elementary and Secondary Schools, issued annually.

B. REVISION OF CURRICULUM

- Curriculum 2, Promotion from Grade 8 and Admission to Grade 9, 1965.

C. COURSES OF STUDY

Grades 9 to 13

- Circular H.S. 1, Requirements for Certificates and Diplomas, issued annually. Outlines subjects of various courses leading to Intermediate Certificates, Secondary School Graduation Diplomas and Secondary School Honour Graduation Diplomas.
- Circular H.S. 1B, List of Publications re Courses of Study (Grades 9-13) issued annually. Lists Circular Numbers and Titles of the various Courses of Study.
- Curriculum I. 1, Intermediate Division Art, Mathematics (Grades 7-10) 1965.
- Curriculum S. 4A, Reading List for Senior Division (Grades 11-13) 1964.
- Curriculum S. 4AC, Supplement to Senior Division Reading List (Grades 11-13) 1964.
- Curriculum S. 8, Grade 13 Curriculum Bulletin, 1965.
- Curriculum I. & S. 15, Intermediate and Senior Divisions Modern Languages (Grades 9-13) 1963.
- Curriculum I. & S. 16, Music (Grades 9-13) 1965.
- Courses in the various subjects of Grades 11, 12 and 13. These should be requested by subject and grade.
- Curriculum 46, Courses of Study and Examinations in Schools attended by French-Speaking Pupils, 1964.
- Circular 14, Text-books Approved or Recommended for use in Elementary and Secondary Schools, issued annually.
- Circular 58, Prescriptions in English and Modern Languages for Grade 13 Departmental Examinations, issued annually.

D. TEACHING AIDS

Art

- Art and Crafts in the Schools of Ontario, 1962.
- Art Education in the Kindergarten, 1962.
- Art Education for Slow Learners, 1965.
- Art Education during Adolescence, 1965.
- Children and Their Pictures, 1963.

Library

- Teachers' Library Catalogue.

TABLE 6.5—PUBLICATIONS OF THE DEPARTMENT OF EDUCATION—(Concluded)

Music

- Circular Mus. 3, School Music Festivals, 1950.
- Circular Mus. 5, Memorandum relating to the Teaching of Music in Elementary and Secondary Schools, 1955. (Out of print).
- Circular Mus. 6, Careers in School Music, 1957.
- Circular Mus. 8, Song Books for School, 1958.

Radio

- School Radio Broadcasts, issued annually.

Religious Exercises, Religious Education and Religious Instruction

- List of Bible Readings for Schools, 1961.
- Programme for Religious Education in Public Schools, 1963.

E. ADDITIONAL PAMPHLETS

- Visual Education Catalogue and Supplements.
- Teaching in the Elementary Schools of Ontario, issued annually.
- Calendar of the Teachers' College, issued annually.
- Calendar of the University of Ottawa Teachers' College, 1965.
- Calendar of the Primary School Specialist Certificate Course, 1965.

F. SCHOOL ACTS AND AMENDMENTS

- The Department of Education Act, 1965.
- The Public Schools Act, 1965.
- The Schools Administration Act, 1965.
- The Secondary Schools and Boards of Education Act, 1965.
- The Separate Schools Act, 1965.
- The Ontario School Trustees' Council Act, 1965.
- The Teachers' Superannuation Act, 1963.
- The Teaching Profession Act, 1965.
- The Trade Schools Regulation Act, 1964.
- The Public Libraries Act, 1965.

REGULATIONS

- Auxiliary—Education Services
- Diplomas—Elementary and Secondary Schools
- Elementary Schools—General
- Elementary School Inspector's Certificate
- General Legislative Grants
- Grade 12 Departmental Examinations
- Grade 13 Departmental Examinations
- Grants for Non-Profit Camps
- Interim Teaching Certificates
- Municipal Recreation Directors' Certificates
- Ontario School for the Blind and Ontario School for the Deaf
- Permanent Teaching Certificates
- Programmes of Recreation
- Public Libraries
- Reimbursement for Cost of Education in Territorial Districts or Crown Lands
- Scholarships for Study Outside Ontario
- School Attendance
- Schools for Retarded Children
- Secondary Schools—General
- Special Certificates
- Student Aid
- Supervisory Officers
- Teachers' Colleges
- Teachers' Contracts
- Text-books
- University of Ottawa Teachers' College

Regional Library Co-operatives are established under Part III of the Public Libraries Act and are designed to provide and encourage co-operative services among member libraries.

(1) Member libraries listed are totals for the region and do not necessarily participate in all services. (2) Headquarters circulation and (3) expenditure are unduplicated: they do not include totals reported elsewhere. (4) Total of all public library expenditure in the region, and (5) expenditure per capita for the region.

TABLE 6.6—PUBLIC LIBRARIES IN ONTARIO—(Continued)

(1) Excludes payments by the Province to Boards for services rendered, such as for the education of pupils from certain unorganized areas and for the use of schools for practice teaching.

(2) Commencing with 1963, the former special grants were incorporated into the general legislative grant. The legislative grants for 1955, 1956 and 1957 are special per pupil grants. The legislative grants for 1961, 1962 and 1963 are the Residential and Farm School Tax Assistance Grant. The latter grant was incorporated into the general legislative grant in 1964. The amount shown for 1964 is in respect of the 1963 Grant.

NOTE: During the calendar years 1962, 1963, 1964 and 1965, payments in the amounts \$116,880,945, \$108,645,957, \$24,209,090 and \$25,578,365 respectively were made to School Boards for the construction and equipment of vocational accommodation under the terms of the Technical and Vocational Training Agreement between the Government of Canada and the Government of the Province of Ontario.

Total	301,339	1,089	334,712	635,906,000

Notes: 1. Enrolment increases are calculated on September enrolments.

2. Building projects are counted in the year of completion.

3. No account is taken in this table of pupil-places lost as a result of the following factors: shift from urban to suburban areas, fire losses, replacement of temporary and obsolete accommodation, and abandonment of small buildings to permit centralized facilities.
